

A PROUD & PROGRESSIVE
VILLAGE FOR ALL PEOPLE

VILLAGE NEWS

July/August 2015

Glendale Heights, Illinois

Linda Jackson, Mayor

Glendale Heights Fest

Wednesday, July 8 - Sunday, July 12
Camera Park

Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest will be held on Wednesday, July 8 through Sunday, July 12 at Camera Park. Enjoy the carnival and rides, along with exciting entertainment and fantastic food booths.

Enjoy a breathtaking display of fireworks at dusk on Wednesday, July 8 and again on Sunday, July 12. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Turn to pages 12 - 13 for details about Glendale Heights Fest including hours, list of vendors, entertainment line-up and much more!

Community Garage Sale

Saturday, August 22

9:00 am - 2:00 pm • Camera Park

Families! Clean out the basement, attic and garage! It's time to get rid of all that stuff you no longer want. Rent a space and sell it all at our 11th Annual Community Garage Sale. Remember one man's trash is another man's treasure! Nothing to sell? Come out and shop the bargains from over 50 different sellers.

Register for a booth at the Sports Hub
Vendor arrival time: 7:30 am.

Fee: \$15/\$20

National Night Out & Pool Party!

Tuesday, August 4 • 6:00 pm to 8:00 pm • GH₂O Aquatic Center • 240 Civic Center Plaza

National Night Out Against Crime is celebrated annually on the 1st Tuesday in August by Law Enforcement Agencies across the United States. The Glendale Heights Police Department invites you and your family to join them on Tuesday, August 5th from 6:00 pm to 8:00 pm at the GH₂O Aquatic Center, to show your support for crime and drug prevention in Glendale Heights. The Aquatic Center is located at 240 Civic Center Plaza.

This free event is open to all residents and is meant to raise awareness about crime prevention in our community. The Glendale Heights Police Department has coordinated an evening of fun featuring free admission into the newly renovated pool, a police dunk tank, games, face painting, a visit from McGruff the crime fighting mascot, emergency apparatus demonstrations by the Glenside Fire Protection District and more. Also during the event, Heartland Blood Center will be at the Village Hall Training Room accepting blood donations from 3:00 pm to 7:00 pm. All donors will receive a \$5 Target Gift Card.

POLICE • COMMUNITY PARTNERSHIPS

Grilled hot dogs and hamburgers, soft drinks and snacks will be offered, free of charge and served by Glendale Heights Police Officers, Village Officials and the Glendale Heights Junior Woman's Club. We hope you will join us.

For more information, contact Sgt. Rhonda Kirstein at 630.909.5441, or the police non-emergency number at 630.260.6070.

Register online at www.glendaleheights.org and select on-line water payment. If you are already registered for on-line payment, access your account and follow the instructions for auto-payment. Call 630.260.6010 with any questions.

CHARACTER COUNTS! in Glendale Heights

The Glendale Heights CHARACTER COUNTS! Coalition would like to invite our residents and businesses to have a **T** (trustworthiness) **R** (respect) **R** (responsibility) **F** (fairness) **C** (caring) **C** (citizenship) summer with us in Glendale Heights.

The Village of Glendale Heights congratulates all of the award winners announced at the 2015 CHARACTER COUNTS! Pillar Awards Annual Recognition Breakfast.

The pillar for July is **TRUSTWORTHINESS** & the pillar for August is **RESPECT**.

Mother Daughter Tea Party

Sunday, August 9

2:00 pm - 4:00 pm • 311 Windy Point Dr.

Moms and Daughters, enjoy a Victorian tea party at our beautiful Historic House! Bring your favorite doll for cookies, cupcakes, tea and of course, pink lemonade. This wonderful home will take you back in time to the 1800's! The party will include a tour through each room of the local landmark. Dress in your favorite little dress - photos will be taken. Each attendee will make her own keepsake to take home to remember this special day! (spaces are limited). Fee: \$20/\$25

Pakistan's Independence Day Celebration

Saturday, August 15 • Noon to 11:00 pm • Camera Park

Don't miss out on this special celebration honoring Pakistan's Independence. There will be festivities for all ages including a special appearance by Singer, ALI HAIDER as well as entertainment and laughter by KASHIF and Saima Khan widely known as, "The Girl with the Golden Voice." Free prize drawings will be held every hour until 10:00 pm.

For food and craft vendor information, please call 630.664.4978 or 630.709.9467. For sponsorship information, please contact Sohail Bari at 630.709.9467. For the cultural program, please contact Farah Bari at 630.709.9468.

Historic House Tours

August 8 and September 12 • 10:00 am - 1:00 pm

311 Windy Point Drive

Step inside the front door and step back in time to the way things were 100 years ago, right down to the working pump on the kitchen sink, a wood burning stove in the kitchen, oil burning light fixtures, and the player piano in the front parlor. The attached exhibit hall is devoted to the display of the history of Glendale Heights, from the original settlers who arrived in the 1830's, to the incorporation of the Village in 1959, and its growth and development over the past 50 years.

If you love the Victorian era, this is something you will want to experience. Bring the kids along to see the working train set and farm land exhibit, and don't forget your camera. The Historic House is a wonderful "old place" in our community for everyone to enjoy!

PATH Summer Camp "Hollywood"

Camp Kinie: The Debutants

Entering Kindergarten in September 2015

Lights, Camera, Action! Camp Kinie is perfect for our youngest campers who are not quite old enough for regular summer camp. Campers will make new friends and memories that will last a lifetime. Fee includes 30-minute swim lesson four (4) days a week, weather permitting.

PATH Summer Camp

Stars (grades 1-2)
Directors (grades 3-5)

This summer camp provides participants a way to stay busy with art projects, athletic activities and field trips. Includes a 30-minute swimming lesson Monday through Thursday, weather permitting. Fieldtrips are typically on Fridays.

STEP Camp

The Pilots (grades 6-8)

Participants develop leadership and social skills in our camp designed to foster self-discovery and multicultural understanding. Participants will focus on responsibilities such as leading camp activities and projects.

2015 Park Parties

Join us at your neighborhood park for some FUN and the opportunity to meet the Mayor and your District Trustee. Enjoy a free hot dog and ice cream as you play games and dance along with the Parks & Recreation staff.

Park Parties are 5:30 pm - 7:00 pm.

Monday, July 27 - Millennium Park

Thursday, July 30 - Ringneck Park

Aquatic Center Birthday Parties

Bring the party to GH2O and leave the cooking and fun to us! Just bring the cake! Parties begin at 11:30 am (before opening to the general public) with fun and games until 12:00 pm. From 12:00 pm - 12:30 pm the children will have their choice of the following combos: hot dog/chips or pizza - each offered with a beverage. After the party, you and your guests are invited to stay the day to enjoy the pool, slides, diving boards, flow rider, spray area and sand play areas! Contact the Sports Hub for more information!

Preschool Family Fun Fair

Thursday, August 20th
6:00 pm - 7:30 pm

Come for a night of fun and meet our qualified preschool teachers. Enjoy music, activities, storytelling, art, crafts and much more.

*Open enrollment will be available

Youth Football & Cheer Camp (Grades K-8)

July 13 - 16 at Nazos Park

We are dedicated to teaching the fundamentals in addition to fitness, teamwork, sportsmanship, respect, integrity and FUN! These camps are open to all grades K-8 regardless of if you plan to participate in the fall Football and Cheer programs.

16th Annual Charity Golf Classic

The Village of Glendale Heights, the Glendale Heights Chamber of Commerce, and FOP Lodge 52 thank everyone that helped to make the 16th Annual Glendale Heights Charity Golf Classic a great success as thousands of dollars were raised for Family in Faith Food Pantry, FOP Lodge 52 Community Enrichment Fund, the Glendale Heights Chamber of Commerce Scholarship Fund and the Glendale Heights Foundation. Without our sponsors and community support, this event would not be the success it has been over the years.

Adult Golf Lessons

Glendale Lakes Golf Club will be offering golf lessons for adults that are looking to learn the game in a friendly and relaxed environment. Session #3 for the summer will be taking place on Tuesday and Thursday evenings from July 14, 2015 to July 23, 2015. These four lessons will start at 6:30 pm and cover putting, chipping, fundamentals of the swing and much more. Class size is limited so sign up today by calling 630.260.0018.

Lighting Upgrades

In May of 2015, the Village of Glendale Heights completed a lighting upgrade project at the Water Pollution Control Facility (WPCF). The upgrade was made possible through financial assistance provided by the Illinois Clean Energy Community Foundation and the Illinois Department of Commerce and Economic Opportunity. The newly installed energy efficiency fixtures will enable the Village to save money by lowering the electrical demand of the facility. The Village thanks the Illinois Clean Energy Community Foundation and the Illinois Department of Commerce and Economic Opportunity for their support.

Street Division

Street Division will be focusing on infrastructure maintenance, repair, and reconstruction. The Division maintains the Village's storm water system which includes clearing of streams, creeks and curb inlets. More extensive repairs are undertaken by the Division as well, which include structure and lateral line due repairs and replacement of lateral lines.

There are 76 miles of single lane roads within the Village that require sweeping and periodic maintenance. Also included in the Street Maintenance Program are road resurfacing, curb and sidewalk replacement, sidewalk trip hazard grinding, pothole patching, and street regulatory and street name sign maintenance including maintenance of over 800 metal poled street lights.

Please note that Com-Ed is responsible for all wooden poled street lights, contact Public Works with any questions or concerns relating to any street lights throughout the Village.

You may contact the Public Works Department at 630.260.6040 for any questions or concerns related to the services or visit our website at <http://www.glendaleheights.org/PublicWork.html>

Fleets

Fleets Division has begun an overhaul of its offices and parts storage room! After 34 years in the same building and many alterations, Fleets will have a new secure entrance to welcome residents and vendors. This will include a new waiting area separate from the shop. The Fleets Office Tech will be able to greet people and direct them to the appropriate personnel without the need to walk them through the shop area.

We are very excited about this as it will be much safer for non-personnel. Fleets will also have all files, outside phone lines, and a small office for the mechanics to use away from the noise of the shop. These long overdue updates will add security to the site as well as a clean, professional appearance to the Public Works Fleets garage. Personnel look forward to this project being completed in the coming months.

Water Conservation

Residents, property owners, renters, or property managers are reminded that the Village of Glendale Heights begins its Outdoor Water Usage Schedule for water conservation measures per Title 9-2-3 of the Village Code, whereby persons or entities owning or controlling property in the Village may use water for outdoor water sprinkling and/or other large consumption purposes on designated days and times. This schedule shall remain in effect until September 30. Unless otherwise provided, the following outdoor water usage schedule shall apply:

- Outdoor water use is permitted between 6:00 am to 10:00 am & between the hours of 6:00 pm to 10:00 pm.
- Odd number street addresses are permitted to water on odd days of the month.
- Even number street addresses are permitted to water on even days of the month.

Visit www.glendaleheights.org/Goes_Green/water_conservation.

Glendale Heights Police Department

www.glendaleheights.org/policedept

Your Child, Your Car and You!

With summer upon us, and temperatures heating up across the nation, the Glendale Heights Police Department is warning parents and caregivers of young children to be mindful that it doesn't take long for a child to experience the effects of heatstroke if left unattended in a parked car.

When outside temperatures are in the low 80's, the temperature inside a vehicle can reach deadly levels in only 10 minutes, even with a window rolled down two inches. Young children are particularly at risk because their bodies heat up three to five times faster than an adult's. When a child's temperature reaches 107 degrees, it could lead to heat stroke or worse. The Glendale Heights Police Department urges parents and caregivers to take the following precautions to prevent heatstroke incidents from occurring:

- Never leave a child unattended in a vehicle – even if the windows are partially open
- Make a habit of looking in the vehicle – front and back – before locking the door and walking away
- Ask the childcare provider to call if the child doesn't show up for care as expected
- Do things that serve as a reminder that a child is in the vehicle, such as placing a purse or briefcase in the back seat to ensure no child is accidentally left in the vehicle, or writing a note or using a stuffed animal placed in the driver's view to indicate a child is in the car seat
- Teach children that a vehicle is not a play area and store keys out of a child's reach

In addition, the Glendale Heights Police Department urges community members who see a child alone in a hot vehicle to immediately call 911. A child in distress due to heat should be removed from the vehicle as quickly as possible and rapidly cooled. For more information, visit www.SaferCar.gov/heatstroke.

STAY COOL. STAY HYDRATED. STAY INFORMED.

- Avoid using the stove or oven to cook.
- Wear loose, lightweight, light-colored clothing.
- Stay in air-conditioned buildings as much as possible. If you don't have air-conditioning, find an air-conditioned/cooling shelter in your area.
- Do not rely on a fan as your primary cooling device during an extreme heat event.
- Drink plenty of water and **don't wait** until you're thirsty to drink.
- Check on a friend or neighbor, and have someone do the same for you.

Seek medical care immediately if you have or someone you know has symptoms of heat-related illness like muscle cramps, headaches, nausea or vomiting.

Centers for Disease Control and Prevention
National Center for Environmental Health

Glendale Heights Cooling Shelters

As you know, the summer months can bring extremely hot temperatures and dangerously high humidity to the area. Small children, senior citizens, and persons suffering illness or disability are especially vulnerable to extreme heat and humidity. The Glendale Heights Police Department is asking residents to please check on their relatives, friends, and neighbors to ensure their well being and safety.

Glendale Heights will activate a temporary cooling shelter to assist our community when weather conditions present such a need. For additional information about cooling shelters, please call the Police Department's non-emergency number at 630.260.6070 and as a reminder, in ANY emergency you are encouraged to call 9-1-1 for immediate assistance.

Have a safe, enjoyable and cool summer!

Operation Chill

"Ticketing" Kids for Doing Good!

Through Operation Chill, law enforcement officers from the Glendale Heights Police Department will be "ticketing" youngsters caught in random acts of kindness, good deeds or exhibiting positive behavior. The ticket is actually a coupon good for a free 12-oz. Slurpee® semi-frozen, carbonated beverage at any participating U.S. 7-Eleven store. Appropriate "offenses" might include helping another person, wearing a bicycle helmet while riding or skating, deterring crime or participating in community activities and events. Operation Chill was developed by 7-Eleven to positively reward and encourage good behavior by kids during the hot summer months and to enhance relations between police and youth.

Though the reasons for being "ticketed" may vary, the end result is the same for every youngster: A free Slurpee drink and a smile for a good deed.

Citizen's Police Academy

Tuesday's, September 1st - November 10th 6:00 pm - 9:00 pm
Police Department Training Room • FREE

The Glendale Heights Police Department will host their 18th Citizen's Police Academy beginning Tuesday, September 1, 2015. The program, which will be taught by officers from the Glendale Heights Police Department along with guest instructors from other agencies, is designed to give residents a realistic view of police work by providing instruction on various police topics.

Enrollment is free. Citizens 18 years of age or older who live or work in Glendale Heights are invited to attend.
*Note: Due to the nature of the course and curriculum, individuals with prior felony arrests or convictions will be declined.

Applications for enrollment are due no later than August 25, 2015. Interested persons are encouraged to contact the Police Department's non-emergency number at 630.260.6070 for additional information or an enrollment application. Applications can also be downloaded and printed from the Village website, but must be dropped off or mailed to the Police Department once completed.

Summer Storm Safety Tips

In addition to warm weather, summer time can also bring the occasional summer storm. Rain and lightning associated with thunderstorms can present us with a variety of fire hazards. The Glenside and Bloomingdale Fire Districts encourages you to use the following safety tips to help protect you, your family and your home from the potential threat of fire during or after a storm.

- If you see a downed power line, call 911. Avoid driving over downed lines and avoid any pools or puddles of water near them.
- Generators are often used during power outages. Generators create carbon monoxide, an odorless, colorless gas that is deadly. Only use in a well ventilated area.
- If your home has sustained flood or water damage, and you can safely get to the main breaker or fuse box, turn off the power. Appliances that have been exposed to water can short and become a fire hazard.

As always, if you think there may be a hazard to your home, call 911 immediately. The safety of you, your family and your home is our top priority!

For more safety tips visit our websites at www.glensidefire.org or www.bloomingdalefire.com.

Swim Lessons

(Ages 8 months and up)

Learn to swim this summer no matter what level you are! Classes run Monday through Thursday for two week sessions throughout the summer. Each participant will receive a certificate indicating his progress. All classes include a lesson on water safety. Visit www.ghprf.com or call the Sports Hub at 630.260.6060 to find the right class for you.

FlowRider at GH₂O

FlowRider Competition

Sunday, August 2 at 2:00 pm

Register at the Aquatic Center by 1:30 pm or pre-register at the Sports Hub.

Win a GH₂O gift pack or \$20 gift card! Panel of three judges will score participants in two divisions: flow board and stand up. All participants will have 60 seconds to show their skills. Top scores will compete in final round for prize in each division.

Flow Rider Lessons - Learn to Catch the Wave

Classes are held Monday through Thursday for two weeks. Fridays are reserved as make-up days if class is canceled due to weather or other reason. Pool manager holds final authority to cancel or postpone classes. In case of inclement weather, please call 630.260.6000 x 3342 for the status of your lesson. Instructors give equal time to students and develop lessons to specific student's level of experience. Stand up lessons taught with signed waiver and instructor permission. Maximum of 5 students per class.

Surf Club

Join Surf Club for exclusive rights to the Flow Rider and the ability to practice stand-up riding.

Try stand-up surfing for the day while the pool is open to the public with a signed waiver and purchased wristband (\$5 per day pass). Ask at the pool front desk for details!

Paint Reuse & Recycling Tips

Got Paint? Do you have paint left over and not sure what to do with it?

Below are some helpful reuse and recycling tips to better manage use of latex paint.

- When painting a room, buy the necessary amount needed for the project - look beyond what is on sale.
- Save left over paint in a glass jar that leaves almost no air space, and keep the paint for touch ups.
- Then, label the jar for which room the paint was used, or keep in the room itself, to ensure the correct paint will be used in the same room.
- Do not store paint in the garage. Once frozen, it is not reusable.
- Left over **unusable** latex paint should be consolidated into one container and dried with cat litter, sawdust or another absorbent material (i.e., oil absorbent).
- Once the paint is completely dry, it can be put out with regular garbage curb side pickup. Be sure to remove the lid on the paint can, so the waste hauler/driver can see that the paint is dry. Some haulers will not take the dried paint, unless the lid is off.
- For a small fee, some Ace Hardware stores are collecting latex paint to be re-blended and recycled into new latex paint. Visit www.earthpaintscs.com/collection_center/search.php to find a paint recycling location near you.

Oil Based Paint, Paint Thinners, Stain and Varnish Finishes are Toxic

Illinois residents are encouraged to drop-off unwanted, oil-based paint at the Regional Household Hazardous Waste Facility, located in Public Works Facility (156 Fort Hill Drive, Naperville). This is a drive through, drop-off facility open to everyone every Saturday and Sunday from 9:00 am - 2:00 pm, excluding Holidays.

For more information and a complete list of all accepted hazardous materials, visit the facility's website (www.naperville.il.us/hhw.aspx) or call 630.420.6095 during weekdays. The Regional Household Hazardous Waste Facility is funded by the Illinois Environmental Protection Agency, DuPage County and neighboring government agencies.

PAPER & DOCUMENT SHREDDING

SATURDAY, AUGUST 1 • 8:30 AM - NOON

VILLAGE HALL PARKING LOT • 300 CIVIC CENTER PLAZA • FREE!

Stop by the Village Hall Parking Lot on Saturday, August 1st and have any paper or important documents shredded at no cost. All shredded documents will be recycled in an eco friendly manner. This event is provided by the office of State Representative Deb Conroy sponsored by AT&T. For more information, please contact Representative Conroy's constituent office at 630.415.3520 or at repdebconroy@gmail.com.

GLENDALE HEIGHTS

Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest will be held on Wednesday, July 8 through Sunday, July 12 at Camera Park. Enjoy the carnival and rides, along with exciting entertainment and fantastic food booths.

Enjoy a breathtaking display of fireworks at dusk on Wednesday, July 8 and again on Sunday, July 12. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Carnival Wristband Days

Save \$5 on a regular \$25 one-day wristband. **A Wristband for unlimited carnival rides is honored on ONE of the following days and times:**

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – 7:00 pm
Sunday: 3:00 pm – 7:00 pm

Advanced daily pre-sale wristband vouchers are available through Tuesday, July 7.

Pre-sale wristband vouchers can be purchased at the following Glendale Heights locations: Village Hall, Center for Senior Citizens or the Sports Hub.

5-Day Mega Pass - Only \$70

The Mega Pass card (\$70) is valid for unlimited rides on all 5 days! Every Mega Pass holder will be required to take a picture for a Mega Pass Photo ID Card (Mega Passes are non-transferable, non-refundable and all parties must be present at the time of purchase) which will then be used to redeem a special wristband for EACH DAY.

Mega Passes are only available for purchase at the Glendale Heights Sports Hub during normal registration hours located at 250 Civic Center Plaza through Tuesday, July 7. Mega pass wristbands are honored on the following days and times:

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – Midnight
Sunday: 3:00 pm – 7:00 pm

Important:

Certain rides have height restrictions; the "Speed" ride attraction will require 2 additional tickets with wristband or Mega Pass.

| Sunday, July 12 | 3:00 pm – 11:00 pm |

State Curfew for anyone under 17 years of age is 11:00 pm on Wednesday, Thursday and Sunday, and midnight on Friday and Saturday. Anyone under the age of 17 at the Glendale Heights Fest after Curfew must be with a parent or guardian, or will be in violation of curfew. The Curfew laws will be enforced by the Glendale Heights Police Department.

Print at Home

New this year, buy and print your wristband vouchers at home! Avoid the long lines and buy and print your wristband vouchers before coming.

Visit www.glendaleheights.org/GH_Fest for more information!

For more information on Glendale Heights Fest, entertainment, food vendors and more call the Village Hall at 630.260.6000 or visit www.glendaleheights.org/GH_Fest

A special thank you to Adventist GlenOaks Hospital and the Founders' Day Committee

Selling Your Home

If you decide to sell your home in Glendale Heights, here are some steps that will help you in the process! First off, you are required to obtain a tax stamp, which may be done by following these simple steps:

1. Submit a completed Real Estate Transfer Certificate of Compliance Application a minimum of 21 days prior to closing, which is available online or at Village Hall
2. Submit an application fee of \$100.00 for a single family home
3. An inspection will be scheduled when the application and fee is submitted
4. When the inspection is conducted, you will be provided with a report of any items that need to be corrected. You may make the corrections and have a re-inspection, or the purchaser may sign a Guarantee of Compliance and post an escrow to guarantee that the work will be completed within 30 days.
5. A plat of survey of the property less than a year old must be submitted as part of the inspection process.
6. Once the inspection passes or the Guarantee of Compliance is signed and escrow posted, you may submit an application for a Transfer Stamp along with the following documentation:
 - a. Payment of the transfer tax prior to transferring title to or assigning the beneficial interest in a land trust. The tax is \$3.00 for every \$1,000.00 of value or fraction thereof.
 - b. A receipt of payment of the final water bill.
 - c. A copy of the original deed, which may be signed by your attorney.
 - d. A copy of the State Declaration, which may be signed by your attorney.

Once the fees and taxes are paid and the documentation is submitted, the Village will issue the tax stamp. For more information on this process, please contact Community Development at 630.260.6030.

Junior Woman's Club 2015 Scholarship Recipient

The Glendale Heights Junior Woman's Club proudly announces the recipient of the Susan E. Dees Memorial Scholarship for 2015 is Jesica Wagner.

Jesica graduated from Glenbard West High School in 2010 and has attended Lincoln College of Technology and College of DuPage. This fall she plans to attend Benedictine University to finish her Bachelor in Business Management Degree. She has been very active already in her career choice at the DuPage County Health Department where she has worked as a Certified Medical Assistant since 2009. She hopes to one day open a medical office where she will be able to put her business degree as well as her medical assistant experience to use in one setting. Jesica has an outstanding academic record and has achieved academic honors while at both Lincoln College of Technology and College of DuPage.

By awarding a scholarship of \$2,000 to Jesica, the Glendale Heights Junior Woman's Club hopes to help her achieve her academic and personal goals. Members of the Scholarship Committee selected Jesica from a large number of qualified applicants. Congratulations to Jesica and her family from the Glendale Heights Junior Woman's Club!

Support Glendale Heights' Businesses - Shop Local!

Glendale Heights Foundation

The Glendale Heights Foundation (GHF) is a non-profit organization incorporated in 2003 to provide limited one-time emergency financial assistance to Village residents. All assistance requests must be submitted in writing, including name, address, details about the emergency circumstances, and financial assistance requested. Also, a GHF form can be downloaded from the Village website at www.glendaleheights.org. Send requests to: Glendale Heights Foundation, P.O. Box 5280, Glendale Heights, IL 60139 or call Allana Zeiss at 630.668.9409. Tax deductible donations are always welcome and graciously accepted.

Looking Ahead!

September 5 - Coffee with the Mayor and board

September 7 - Final Day at GH₂O

September 10 - 20 - Glendale Heights Oktoberfest

September 11 - Patriot Day Candlelight Ceremony

September 13 - Show & Shine Car Show and Swap Meet

September 26 - Harvest Fest

October 7 - Family Health and Safety Fair

October 23 - Scary Movie Night

October 30 - Safety Town Halloween/Hallow-Tween

Distinguished Budget Presentation Award

For the second year in a row, the Village was honored with the GFOA's Distinguished Budget Presentation Award program. In order to qualify for this program, the Village must prepare a reader friendly document that contains information on the Village's profile, budget strategies and policies, as well as goals and objectives.

The GFOA Award Program was established to encourage government agencies to develop reader-friendly budget documents. The Village's Budget document includes:

- Village Profile and Budget Process
- Departmental Goals and Objectives
- Revenue and Expenditure trend information

If you have questions regarding the Village Budget, please contact the Finance Department at 630.909.5342.

Oktoberfest
September 10 - 20
Camera Park

Thank You Glendale Heights Students

Thank you to the many students from various Glendale Heights Schools who came out to Veterans Memorial Park on Wednesday, May 20th to help place flags. In total, 6,845 flags were planted, each representing a service man and woman who lost their lives during "Operation Iraqi Freedom" and "Operation Enduring Freedom" in Afghanistan. Students, along with residents from our community, also paid their respects at the Illinois Fallen Heroes Traveling Memorial Wall where pictures of 311 service men and women were displayed, each representing someone from Illinois who lost their lives serving our country since September 11th, 2001.

Thank all of the students from Glen Hill School, Glenside Middle School, Americana School, Pheasant Ridge School, St. Matthew School and Reskin School for taking time out of your day to honor those men and women who lost their lives.

Public Works Week

On May 21st and 22nd The Village Of Glendale Heights Public Works Department celebrated "National Public Works Week" by organizing a road show to local schools and also providing tours of the Water Pollution Control Facility.

Village Meetings

Regularly scheduled meetings are held at the Civic Center, unless otherwise noted. Call the Village Hall at 630.260.6000 for more information.

Annual Drinking Water Quality Report

Village of Glendale Heights

For the period of January 1, 2014 to December 31, 2014

Este Informe contiene informacion muy importante sobre su agua potable. Traduzcalo o hable con alguien que lo entienda bien.

ANNUAL DRINKING WATER QUALITY REPORT VILLAGE OF GLENDALE HEIGHTS For the period of January 1, 2014 to December 31, 2014

This report is intended to provide you with important information about your drinking water and the efforts made by the Village of Glendale Heights Water Division to provide safe drinking water. The source of drinking water distributed by the Village is purchased from the DuPage Water Commission.

For more information regarding this report, contact:
Name: Jeff McCumber, Utilities Division Manager- Facility # IL 0430400
Phone: (630) 260 6040

We are pleased to report that The Village of Glendale Heights' drinking water had no violations or exceeded any other water quality standard. No drinking water quality violations were recorded during 2014.

We want our valued customers to be informed about their water quality. If you would like to learn more, please feel welcome to attend any of our regularly scheduled Village Board meetings every first and third Thursday of the month. The meetings are held at Village Hall, 300 Civic Center Plaza, and begin at 7:30 p.m. You can also attend the DuPage Water Commission meetings. For information on when their meetings are scheduled, please call 630.834.0100. The source water assessment for our supply has been completed by the Illinois EPA. If you would like a copy of this information, please stop by Village Hall or call our Utilities Division Manager at 630.260.6040. To view a summary version of the completed Source Water Assessments, including: Importance of Source Water; Susceptible to Contamination Determination; and documentation/recommendation of Source Water Protection Efforts, you may access the Illinois EPA website at <http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.p1>

Source of Drinking Water

Lake Michigan water is supplied to the DuPage Water Commission from the City of Chicago. The City does all water filtration and treatment. The DuPage Water Commission adds chlorine and delivers the water through a series of water mains and storage tanks. The Village of Glendale Heights then delivers the water through several pump stations and storage tanks. The Village does not add chemicals to the water, but has the capabilities to do so.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline 1.800.426.4791.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or human activity.

(Continued on Page 20)

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by *Cryptosporidium* and other microbial contaminants are available from the Safe Drinking Water Hotline 1 (800) 426 4791.

**CITY OF CHICAGO, DEPARTMENT OF WATER MANAGEMENT
SOURCE WATER ASSESSMENT SUMMARY
FOR THE 2014 CONSUMER CONFIDENCE REPORT (CCR)**

Source Water Location

The City of Chicago utilizes Lake Michigan as its source water via two water treatment plants. The Jardine Water Purification Plant serves the northern areas of the City and suburbs, while the South Water Purification Plant serves the southern areas of the City and suburbs. Lake Michigan is the only Great Lake that is entirely contained within the United States. It borders Illinois, Indiana, Michigan, and Wisconsin, and is the second largest Great Lake by volume with 1,180 cubic miles of water and third largest by area.

Source Water Assessment Summary

The Illinois EPA implemented a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination. The Illinois EPA has completed the Source Water Assessment Program for our supply. Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

Susceptibility to Contamination

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment for all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake

and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312.744.6635.

2014 Voluntary Monitoring

The City of Chicago has continued monitoring for Cryptosporidium, Giardia and E. Coli in its source water as part of its water quality program. To date, Cryptosporidium has not been detected in these samples, but Giardia was detected in 2010 in one raw lake water sample collected in September 2010. Treatment processes have been optimized to provide effective barriers for removal of Cryptosporidium oocysts and Giardia cysts in the source water, effectively removing these organisms in the treatment process. By maintaining low turbidity through the removal of particles from the water, the possibility of Cryptosporidium and Giardia organisms getting into the drinking water system is greatly reduced.

In 2014, Chicago Department of Water Management (CDWM) has also continued monitoring for hexavalent chromium, also known as chromium-6. USEPA has not yet established a standard for chromium-6, a contaminant of concern which has both natural and industrial sources. Please address any questions or concerns to CDWM's Water Quality Division at 312.742.7499. Data reports on the monitoring program for chromium-6 are posted on the City's website which can be accessed at the following address below:

http://www.cityofchicago.org/city/en/depts/water/supp_info/water_quality_resultsandreports/city_of_chicago_emerigincontaminantstudy.html

2014 VIOLATION SUMMARY TABLE

We are pleased to announce that no monitoring, reporting, treatment technique, maximum residual disinfectant level, or maximum contaminant level violations were recorded during 2014.

DATA TABULATED BY CHICAGO DEPARTMENT OF WATER MANAGEMENT 2014 WATER QUALITY DATA

-Definition of Terms-

Maximum Contaminant Level Goal (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

Maximum Contaminant Level (MCL):

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Highest Level Detected:

This column represents the highest single sample reading of a contaminant of all samples collected in 2009.

Range of Detections:

This column represents a range of individual sample results, from lowest to highest that were collected during the CCR calendar year.

Date of Sample:

If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the Consumer Confidence Report calendar year.

Treatment Technique (TT):

A required process intended to reduce the level of a contaminant in drinking water.

ND:

Contaminant Not Detected at or above the reporting or testing limit.

N/A:

Not applicable

(Continued on Page 22)

Annual Drinking Water Quality Report
(Continued from Page 21)

Detected Contaminants

| Contaminant (unit of measurement) Typical Source of Contaminant | MCLG | MCL | Highest Level Detected | Range of Detections | Violation | Date of Sample |
|---|------|-----------------------------|----------------------------|---------------------|-----------|----------------|
| <u>TURBIDITY DATA</u> | | | | | | |
| Turbidity (NTU/Lowest Monthly % ≤ 0.3 NTU) Soil runoff | N/A | TT (Limit 95% ≤ 0.3 NTU) | (Lowest Monthly %) 100% | 100% - 100.0% | | |
| Turbidity (NTU/Highest Single Measurement) Soil runoff | N/A | TT (Limit 1 NTU) | 0.11 | N/A | | |
| <u>INORGANIC CONTAMINANTS</u> | | | | | | |
| Barium (ppm) Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits | 2 | 2 | 0.0227 | 0.0223 - 0.0227 | | |
| Nitrate (As Nitrogen) (ppm) Runoff from fertilizer use; Leaching from septic tanks, Sewage, Erosion of natural deposits | 10 | 10 | 0.31 | 0.30 - 0.31 | | |
| Total Nitrate & Nitrite (As Nitrogen) (ppm) Runoff from fertilizer use; Leaching from septic tanks, sewage, Erosion of natural deposits | 10 | 10 | 0.31 | 0.30 - 0.31 | | |

TOTAL ORGANIC CARBON

TOC [Total Organic Carbon]

The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set by the IEPA.

| Contaminant (unit of measurement) Typical Source of Contaminant | MCLG | MCL | Highest Level Detected | Range of Detections | Violation | Date of Sample |
|---|------|-----|------------------------|---------------------|-----------|----------------|
| <u>UNREGULATED CONTAMINANTS</u> | | | | | | |
| Sulfate (ppm) Erosion of naturally occurring deposits | N/A | N/A | 35.5 | 20.9 - 35.5 | | |
| Sodium (ppm) Erosion of naturally occurring deposits; Used as water softener | N/A | N/A | 10.0 | 9.53 - 10.0 | | |
| <u>STATE REGULATED CONTAMINANTS</u> | | | | | | |
| Fluoride (ppm) Water additive, which promotes strong teeth | 4 | 4 | 0.98 | 0.94 - 0.98 | | |
| <u>RADIOACTIVE CONTAMINANTS</u> | | | | | | |
| Combined Radium (226/228) (pCi/L) Decay of natural and man-made deposits. | 0 | 5 | 0.84 | 0.50 - 0.84 | | |
| Gross Alpha excluding radon and uranium (pCi/L) Decay of natural and man-made deposits. | 0 | 15 | 6.6 | 6.1 - 6.6 | | |

(Continued on Page 23)

2014 Water Quality Data Table Footnotes

Turbidity

Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

Unregulated Contaminants

A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

Fluoride

Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride range of 0.9 mg/l to 1.2 mg/l.

Sodium

There is no state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials who have concerns about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about the level of sodium in the water.

UCMR3 Compliance Reporting

In compliance with the Unregulated Contaminant Monitoring Rule 3 (UCMR3) as required by the EPA, the City of Chicago has monitored for 28 contaminants suspected to be present in drinking water, but that do not have health-based standards set under the Safe Drinking Water Act. The monitoring results were reported to the EPA. The list of UCMR3 contaminants that we have monitored included volatile organic chemicals, metals, perfluorinated compounds, hormones, 1, 4-dioxane and chlorate. The contaminants that were detected in this monitoring program are listed below.

| Contaminant (unit of measurement) Typical Source of Contaminant | MCLG | MCL | Highest Level Detected | Range of Detections | Violation | Date of Sample |
|--|-------------|------------|-------------------------------|----------------------------|------------------|-----------------------|
| Chromium (ppb) Naturally-occurring element; used in making steel and other alloys | 100 | 100 | 0.3 | 0.2 - 0.3 | | |
| Molybdenum (ppb) Naturally-occurring element found in ores and present in plants, animals and bacteria; commonly used form molybdenum trioxide | N/A | N/A | 1.1 | 1.0 - 1.1 | | |
| Strontium (ppb) Naturally-occurring element; has been used in cathode-ray tube TVs to block x-ray emissions | N/A | N/A | 120 | 110 - 120 | | |
| Vanadium (ppb) Naturally-occurring metal; vanadium pentoxide is used as a catalyst and a chemical intermediate | N/A | N/A | 0.3 | ND - 0.3 | | |
| Chromium-6 or Hexavalent Chromium (ppb) Naturally-occurring element; used in making steel and alloys | N/A | N/A | 0.22 | 0.18 - 0.22 | | |
| 4-Androstene-3, 17- Dione (ppb) Steroidal hormone naturally produced in the human body; and used as an anabolic steroid and a dietary supplement | N/A | N/A | 0.0008 | 0.0006 - 0.0008 | | |
| Testosterone (ppb) Androgenic steroid naturally produced in the human body; and used in pharmaceuticals | N/A | N/A | 0.0001 | 0.0001 - 0.0001 | | |

Unit of Measurement

ppm Parts per million, or milligrams per liter
%≤0.3 NTU Percent of samples less than or equal to 0.3 NTU

NTU Nephelometric Turbidity Unit, used to measure cloudiness in drinking water
ppb Parts per billion, or micrograms per liter
pCi/L Picocuries per liter, used to measure radioactivity

Village of Glendale Heights
2014 Water Quality Data

NO DRINKING WATER QUALITY VIOLATIONS WERE RECORDED DURING 2014

Regulated Detected Contaminants

| Contaminant | Total Coliform Maximum Contaminant Level | Highest No. of Positive | Fecal Coliform or E. Coli Maximum Contaminant Level | Total No. of Positive E. Coli or Fecal Coliform Samples | Violation | Likely Source of Contamination |
|-------------------|--|-------------------------|---|---|-----------|--------------------------------------|
| Coliform Bacteria | 5% of monthly samples are positive | 4.3% | - | 0 | N | Naturally present in the environment |

Lead and Copper

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking.

If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Definitions:

Action Level Goal (ALG): The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.

Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

| Lead and Copper | Date Sampled | MCLG | Action Level (AL) | 90th Percentile | # Sites Over AL | Units | Violation | Likely Source of Contamination |
|-----------------|--------------|------|-------------------|-----------------|-----------------|-------|-----------|--|
| Copper | 2014 | 1.3 | 1.3 | 0 | 0 | ppm | N | Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing systems |
| Lead | 2014 | 0 | 15 | 0 | 1 | ppb | N | Corrosion of household plumbing systems; Erosion of natural deposits |

Regulated Contaminants

| Disinfectants & Disinfectant By-Products | Collection Date | Highest Level Detected | Range of Levels Detected | MCLG | MCL | Units | Violation | Likely Source of Contamination |
|--|-----------------|------------------------|--------------------------|-----------------------|--------|-------|-----------|---|
| Chlorine | 12/31/2014 | 0.6 | 0.5 - 1.0 | MRDLG = 4 | MRDL=4 | ppm | N | Water additive used to control microbes. |
| Haloacetic Acids (HAA5) | 2014 | 15 | 9.47- 19.0 | No goal for the total | 60 | ppb | N | By-product of drinking water disinfection |
| Total Trihalomethanes (TTHM) | 2014 | 39 | 16.95 - 42.1 | No goal for the total | 80 | ppb | N | By-product of drinking water disinfection |

(Continued on Page 25)

GLENDALE HEIGHTS STAND-BY WELLS

The Village of Glendale Heights' Stand-by Wells have been maintained in accordance with IEPA testing requirements and standards and are for emergency purposes only. The four Well sites are operated and tested without supplementing the Lake Michigan Water that we purchase and distribute from the DuPage Water Commission.

Inorganic Compounds are tests performed for stand-by wells, **which are not connected** to the distribution system and are for emergency purposes only.

*Arsenic –While your drinking water meets EPA standards for arsenic, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenic's possible health effects against the cost of removing arsenic from drinking water. The EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

INORGANIC CONTAMINANTS

| Element | Collection Date | Highest Level Detected | Range of Level Detected | MCLG | MCL | Units | Violation | Likely Source of Contamination |
|----------|-----------------|------------------------|-------------------------|------|-----|-------|-----------|--|
| Arsenic* | 2014 | 6.4 | 0 - 6.4 | 0 | 10 | ppb | N | Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronic production wastes. |
| Barium | 2014 | 0.0334 | 0.0334 | 2 | 2 | ppm | N | Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits. |
| Fluoride | 2014 | 2.39 | 0.443 - 2.39 | 4 | 4.0 | ppm | N | Erosion of natural deposits; Water additive promotes strong teeth; Discharge from fertilizer and aluminum factories. |
| Iron | 2014 | 1.02 | 0.117 - 1.02 | 0 | 1.0 | ppm | N | This contaminant is not currently regulated by the USEPA. However, the state regulates. Erosion of natural deposits. |
| Nickel** | 2014 | 0.0321 | 0.0321 | 0.1 | 0.1 | ppm | N | This contaminant is not currently regulated by the USEPA. However, the state regulates. Erosion of natural deposits; Catalyst production of organic chemical manufacturing |
| Sodium | 2014 | 53.3 | 38.4 -53.3 | 0 | 0 | ppm | N | Erosion from naturally occurring deposits: used in water softener regeneration. |
| Sulfate | 2014 | 186 | 136 - 186 | 250 | 250 | ppm | N | Sulfate is a substance that occurs naturally in drinking water. |

** The MCL and MCLG for Nickel were remanded on February 9th, 1995. This means that while many water suppliers continue to monitor nickel levels in their water, there is currently no EPA legal limit on the amount of nickel in drinking water. The EPA is considering the limit on nickel.

| Radioactive Contaminants | Collection Date | Highest Level Detected | Range of Levels Detected | MCLG | MCL | Units | Violation | Likely Source of Contamination |
|---|-----------------|------------------------|--------------------------|------|-----|-------|-----------|--------------------------------|
| Combined Radium 226/228 | 2014 | 1.38 | 0 -1.38 | 0 | 5 | pCi/L | N | Erosion of natural deposits. |
| Gross Alpha excluding radon and uranium | 2014 | 2.5 | -0.16 -2.5 | 0 | 15 | pCi/L | N | Erosion of natural deposits. |

**Annual Drinking Water Quality Report
(Continued from Page 25)**

Glendale Heights UCMR 3 Testing

In 1996 amendments to the Safe Drinking Water Act (SDWA) require that once every five years, the U.S. Environmental Protection Agency (EPA) issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The Unregulated Contaminant Monitoring Rule (UCMR) provides EPA and other interested parties with scientifically valid data on the occurrence of contaminants in drinking water. These data serve as a primary source of occurrence and exposure information that the agency uses to develop regulatory decisions.

The Village of Glendale Heights is classified under the UCMR 3 as an Assessment Monitoring (List 1) community, and is monitoring for 21 chemicals in 2014 as a part of the UCMR monitoring requirements established in 1996 by the U.S. EPA. These results are seen in the table below:

UCMR3 COMPLIANCE REPORTING

| Element | Collection Date | Highest Level Detected | Range of Levels Detected | MCLG | MCL | Units | Likely Source of Contamination |
|--|-----------------|------------------------|--------------------------|------|-----|-------|---|
| Chromium | 2014 | 0.5 | 0.4 - 0.5 | 100 | 100 | ppb | Naturally-occurring element; used in making steel and other alloys |
| Molybdenum | 2014 | 1.0 | 0 - 1.0 | NA | NA | ppb | Naturally-occurring element found in ores and present in plants, animals and bacteria; commonly used form molybdenum trioxide used as a chemical reagent. |
| Strontium | 2014 | 110.0 | 110.0 | NA | NA | ppb | Naturally-occurring element; has been used in cathode-ray tube TVs to block x-ray emissions |
| Vanadium | 2014 | 0.3 | 0.3 | NA | NA | ppb | Naturally-occurring metal; vanadium pentoxide is used as a catalyst and a chemical intermediate |
| Chromium-6 or Hexavalent Chromium | 2014 | 0.21 | 0.20 - 0.21 | NA | NA | ppb | Naturally-occurring element; chromium - 3 or - 6 forms are used for chrome plating, dyes and pigments, leather tanning, and wood preservation. |

**AS REPORTED BY THE DUPAGE WATER COMMISSION - (630) 834-0100
2014 Regulated Contaminants Detected**

Coliform Bacteria

| Maximum Contaminant Level Goal | Total Coli form Maximum Contaminant Level | Highest No. of Positive | Fecal Coli form or E. Coli Maximum Contaminant Level | Total No. of Positive E.Coli or Fecal Coli form Samples | Violation | Likely Source of Contamination |
|--------------------------------|---|-------------------------|--|---|-----------|--------------------------------------|
| 0 | 0 positive monthly sample | 0 | Fecal Coliform or E. Coli MCL: A routine sample and a repeat sample are total coliform positive, and one is also fecal coliform or E. Coli positive | 0 | No | Naturally present in the environment |

Regulated Contaminants

| Disinfectants & Disinfection By-Products | Collection Date | Highest Level Detected | Range of Levels Detected | MCLG | MCL | Units | Violation | Likely source Of Contamination |
|--|-----------------|------------------------|--------------------------|------|-----|-------|-----------|---|
| Chlorine | 5/1/2014 | 1.40 | 0.70 - 1.40 | 4 | 4 | ppm | N | Water additive used to control microbes |
| Total Haloacetic Acids (HAA5) | 2014 | 16.1 | 14.0 - 16.1 | N/A | 60 | ppb | N | By-product of drinking water chlorination |
| Total Trihalomethanes (TTHMs) | 2014 | 31.03 | 28.6 - 31.03 | N/A | 80 | ppb | N | By-product of drinking water chlorination |

Not all sample results may have been used for calculating the highest level detected because some results may be part of an evaluation to determine where compliance sampling should occur in the future.

(Continued on Page 27)

Educational statements and conservation strategies for surface water may be obtained at <http://www.preservingeverydrop.org/>

Note: The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be more than one year old. **MCL (Maximum Contaminant Level):** The highest level of a contaminant that is allowed in drinking water. MCL's are set close to the MCLGs as feasible using the best available treatment technology. **MCLG (Maximum Contaminant Level Goal):** The level of contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety. **AL (Action Level):** The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow. ppm: parts per million, ppb: parts per billion, ppt: parts per trillion, pCi/l: picoCuries per liter (measurement of radioactivity)

2014 Water Quality Test Results:

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Maximum Contaminant Level, (MCL):

The highest level of a contaminant that is allowed in drinking water. MCL's are set as close to the Maximum Contaminant Level Goal as feasible, using the best available treatment technology.

Maximum Contaminant Level Goal, (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

mg/l: milligrams per litre or parts per million- or one ounce in 7,350 gallons of water.

ug/l: micrograms per litre or parts per billion- or one ounce in 7,350,000 gallons of water.

na: not applicable. Avg: Regulatory compliance with some MCL's are based on running annual average of monthly samples.

Maximum Residual Disinfectant Level (MRDL):

The highest level of disinfectant allowed in drinking water. There is convincing evidence that the addition of a disinfectant is necessary for control of microbial contaminants.

SAVE WATER IN THE YARD THIS SUMMER

As temperatures rise in the summer, so does our outdoor water use, mostly on lawns and landscapes.

29 billion gallons of daily household water use across the U.S.
9 billion gallons come from daily residential outdoor water use, mainly for landscape irrigation.
Water use spikes in the summer!

Depending on the region, homeowners use 30-60% of their water outdoors.
50% of that is wasted, in part, due to overwatering.

Average family's water use: 320 gallons per day
During the summer, can be up to 1,000 gallons per day

Some even use up to 3,000 gallons per day
—equal to leaving a garden hose running for nearly 8 hours!

Simple Things We Can All Do

- Step on it:** Step on the lawn: if the grass springs back, it doesn't need water.
- Leave it long:** Longer grass promotes a more drought-resistant lawn, reduced evaporation, and fewer weeds.
- Take a sprinkler break:** Grass isn't really meant to be bright green in the summer.

Simple Things Irrigation System Owners Can Do

Homes with automatic irrigation systems can use about 50% more water outdoors.

- Timing is everything:** Plan to water in the early morning or evening to beat daytime evaporation.
- Go with a pro:** Contractors certified through a WaterSense labeled program can audit, install, or maintain home irrigation systems so no water is wasted.
- Look for the label:** If your system uses a clock timer, consider upgrading to a WaterSense labeled controller that acts like a thermostat for your lawn, using local weather data to determine when and how much to water. They can reduce irrigation water use by 15%, saving nearly 8,800 gallons of water per year.

Tune up your system: Inspect irrigation systems, and fix leaks and broken or clogged sprinkler heads. Make sure you're watering the lawn, not the sidewalk or driveway!

Just 1 broken sprinkler head could waste up to 25,000 gallons of water and \$90+ over a 6-month irrigation season — the cost of about 300 daffodil bulbs.

WaterSense, a partnership program by the U.S. Environmental Protection Agency, seeks to protect the future of our nation's water supply. For more tips on reducing outdoor water use, visit www.epa.gov/watersense/outdoor.

Maximum Residual Disinfectant Level Goal (MRDLG):

The level of disinfectant in drinking water below which there is no known risk to health. MRDLG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.
