

A PROUD & PROGRESSIVE
VILLAGE FOR ALL PEOPLE

VILLAGE NEWS

July/August 2016

Glendale Heights, Illinois

Linda Jackson, Mayor

Glendale Heights Fest

Wednesday, July 13 - Sunday, July 17

Camera Park

Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest kicks off Wednesday, July 13 and runs through Sunday, July 17 at Camera Park. Take in the carnival and rides, along with exciting entertainment and fantastic food booths.

Enjoy a breathtaking display of fireworks at dusk on Wednesday, July 13 and again on Sunday, July 17. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Turn to pages 12 and 13 for details about Glendale Heights Fest including hours, entertainment line-up and much more!

Community Garage Sale

Saturday, August 27

9:00 am - 2:00 pm • Camera Park

Clean out the basement, attic and garage! It's time to get rid of all that stuff you no longer want in the grand tradition of the French flea markets. Rent a space and sell it at our 12th Annual Community Garage Sale. Remember one man's trash is another man's treasure! Nothing to sell? Come out and shop the bargains. Register for this event at the Sports Hub where you will receive an information packet including your spot and a corresponding map. Vendor arrival time: 7:00 am. Event runs rain or shine.

Fee: \$15/\$20 (R/NR)

National Night Out!

Tuesday, August 2 • 6:00 pm to 8:00 pm • Civic Center Campus • 300 Civic Center Plaza

National Night Out Against Crime is celebrated annually on the 1st Tuesday in August by Law Enforcement Agencies across the United States. The Glendale Heights Police Department invites you and your family to join them to show your support for crime and drug prevention in Glendale Heights.

This free event is open to all residents and is meant to raise awareness about crime prevention in our community. The Glendale Heights Police Department has coordinated an evening of fun featuring a police dunk tank, games, face painting, a visit from McGruff the crime fighting mascot, and emergency apparatus demonstrations by the Glenside and Bloomingdale Fire Protection Districts. During the event, Heartland Blood Center will be at the Village Hall Training Room accepting blood donations from 3:00 pm to 7:00 pm.

Grilled hot dogs, hamburgers, soft drinks and snacks will be offered free of charge, and served by Glendale Heights Police Officers, Village Officials and the Glendale Heights Junior Woman's Club. We hope you will join us.

For more information, contact Sgt. Kelley Darre at 630.909.5445, or the Police non-emergency number at 630.260.6070.

Letter from the Village President

300 Civic Center Plaza • Glendale Heights, IL 60139
630.909.5303 • ljackson@glendaleheights.org

Dear Residents,

I am pleased to report that the Village of Glendale Heights General Fund is expected to end its 2015/2016 fiscal year in the black which will result in an increase to our reserve funds. The Village's excellent Aa2 bond rating was recently affirmed during an annual review by Moody's Investors Service. Moody's noted the Village's strong financial position as a key factor in affirming it's rating.

The warm weather is a reminder to stop by the GH₂O Aquatic Center to cool off. We have been busier than ever with people of all ages trying out the FlowRider and flying down the slides as they splash into the cool water. The GH₂O Aquatic Center offers regular daily rates along with resident, non-resident and senior citizen rates. We also offer swim lessons and numerous special events throughout the season.

Glendale Heights Fest returns once again with fast paced rides, rocking music, delicious food, and our breathtaking fireworks display that seems to get better and better each year. We'll be opening Glendale Heights Fest on Wednesday, July 13th and running through Sunday, July 17th. Please remember to purchase your wristband vouchers online to avoid long lines. Don't forget to come out on Friday, July 15th and ride the mechanical bull on Country Night. Proceeds will once again benefit Family in Faith Food Pantry located in Glendale Heights.

With the recent retirements of Chief Michael S. Marron and Deputy Chief Steve Ewoldt, the Glendale Heights Police Department has taken on new leadership with the appointment this past April of Doug Flint, as Chief of Police. To fill the two vacant Deputy Chief positions, Chief Flint promoted Sergeant Brandon Oliver and Sergeant Sherry Padyasek. Deputy Chief Padyasek is the first female Deputy Chief in the Glendale Heights Police Department's history. This new police administration team has many new ideas that I am very excited about as we continue to keep the safety of our residents and community in the forefront. We encourage everyone to participate with our online police survey to let our Police Department know how they can better protect and serve us. The survey is available on the Village website at www.glendaleheights.org or the Village's Facebook page at www.facebook.com/voghnews.

Myself, along with the entire Village Board of Trustees, look forward to seeing all of you this summer at our many community events and your neighborhood park parties. Do not hesitate to introduce yourself to us as we are always open to good conversation and listening to your concerns and suggestions. Have a wonderful, fun-filled summer!

Sincerely,

Linda Jackson, Village President

Coffee with the Mayor & Board

Coffee with the Mayor & Board is held on the first Saturday of each month* from 10:00 am to noon at the Center for Senior Citizens. **The next Coffee with the Mayor & Board is scheduled for August 6. There is no Coffee in July.** If you are unable to attend and have a comment, suggestion or question, please call the Mayor's Office at 630.909.5303.

*Subject to Change

Holiday Refuse & Recycling Services Schedule

In observance of the Independence Day Holiday, residents are advised of a change to their regular schedule for refuse and recycling collections. Republic Services will follow their Holiday pick up schedule. All pick up days are delayed by one day for all customers who are scheduled on the day of, or following a holiday.

For service related questions, please call Republic Services at 847.981.0091.

Historic House Tours

August 13 and September 10 • 10:00 am - 1:00 pm
311 Windy Point Drive

Step inside the front door and step back in time to the way things were 100 years ago, right down to the working pump on the kitchen sink, a wood burning stove in the kitchen, oil burning light fixtures, and the player piano in the front parlor. The attached exhibit hall is devoted to the display of the history of Glendale Heights, from the original settlers who arrived in the 1830's, to the incorporation of the Village in 1959, and its growth and development over the past 50 years.

If you love the Victorian era, this is something you will want to experience. Bring the kids along to see the working train set and farm land exhibit, and don't forget your camera. The Historic House is a wonderful "old place" in our community for everyone to enjoy!

Thank you to Eaton Corp!

Thank you to Eaton Corp for their hard work in planting flowers and picking up trash at Heritage Park as part of the Village of Glendale Heights Adopt-a-Park program. If you have a business or community group interested in adopting a park, please contact the Parks Division at 630.260.6060!

CHARACTER COUNTS! in Glendale Heights

The Glendale Heights CHARACTER COUNTS! Coalition would like to invite our residents and businesses to have a **T** (trustworthiness) **R** (respect) **R** (responsibility) **F** (fairness) **C** (caring) **C** (citizenship) summer with us in Glendale Heights.

The Village of Glendale Heights congratulates all of the award winners announced at the 2016 CHARACTER COUNTS! Pillar Awards Annual Recognition Breakfast.

The pillar for July is **TRUSTWORTHINESS** & the pillar for August is **RESPECT**.

Pakistan's Independence Day Celebration

Saturday, August 13 • 5:00 pm to 11:00 pm • Camera Park

Don't miss out on this special celebration honoring Pakistani Independence. There will be fun for all ages including a variety of entertainment and food. At 8:00 p.m, don't miss the formal introduction of dignitaries followed by more great music and entertainment.

For food and craft vendor information or sponsorship information, please call Sohail Bari at 630.709.9467. For the cultural program, please contact Farah Bari at 630.709.9468.

Water Bill Auto Pay

Pay your water bill automatically by registering for monthly auto-payment. Auto payment will withdraw your monthly payment on the due date directly from your checking, savings, debit, or credit card. Register online at www.glendaleheights.org and select on-line water payment. If you are already registered for on-line payment, access your account and follow the instructions for auto-payment. Call 630.260.6010 with any questions.

4th Annual How-To Fest

Saturday, September 17 • 10:00 am - 4:00 pm

Learn how to do more than 40 things in six hours! This year the Glenside Public Library District is partnering with the Glenside Fire Protection District, Glendale Heights Police Department, Glendale Heights Center for Senior Citizens and the Sports Hub to bring you even more exciting learning opportunities! Topics include: speed reading, makeup application, holiday wreaths, cosplay, cheese making, throw pillows, smoothies, internet safety, barre, jewelry making, soups and more! Attendees that visit at least five different events or booths will be eligible to win a \$25 gift card. For more information, visit: www.glensidepld.org/howtofest

Parks, Recreation & Facilities Department

PATH Summer Camp "The Throwback Summer"

Summer of 2016 is the Throwback Summer! Thinking back to summer fun the way it used to be, PATH Summer Camps will be inspired by the nostalgia of yesteryear with classic activities each week like getting outside, obstacle courses, tie-dye t-shirts, color wars, old school cartoons, s'mores and more! Camp Kinie and PATH Summer Camp include swim lessons!

Park Parties

Join us at your neighborhood park for some FUN and the opportunity to meet the Mayor and your District Trustee. Enjoy a free hot dog and ice cream cup as you play games and dance along with the Parks & Recreation staff. Park Parties are from 5:30 pm - 7:00 pm.

Park Party Schedule*

- Wednesday, July 6 - Siems Park
- Monday, July 25 - Gladstone Park
- Wednesday, July 27 - Mill Pond Park
- Monday, August 8 - Americana Park
- Wednesday, August 10 - Greenbriar Park
- Monday, August 15 - Reskin Park

*In the event of rain, the Park Party will be the following day

Camp Kinie: Wonder Years

Entering Kindergarten in September 2016

Get by with a little help from your friends at Camp Kinie! Camp Kinie provides a nurturing environment that aids in building social and academic skills before starting Kindergarten.

PATH Summer Camp

Entering Grades 1-5 in September 2016

Participants will enjoy age-appropriate activities. Participants should enroll in the camp that corresponds to the grades they will enter in 2016:
 Grades 1-2: Full House
 Grades 3-5: Happy Days

Camp Step-by-Step

Entering Grades 6-8 in September 2016

Participants develop leadership and social skills in our camp designed to foster self-discovery and multicultural understanding.

Preschool Family Fun Fair

Thursday, August 18th
6:00 pm - 7:30 pm

Come for a night of fun and meet our qualified preschool teachers. Enjoy music, activities, storytelling, art, crafts and much more.

*Open enrollment will be available at the event

Youth Football & Cheer Camp (Grades K-8)

July 18 - 21 at Nazos Park

We are dedicated to teaching the fundamentals in addition to fitness, teamwork, sportsmanship, respect, integrity and FUN! These camps are open to all kids whether you are planning to participate in the Football and Cheer programs or not. All participants receive a Camp T-shirt. Note: Registration deadline is June 30th. Late registrations will be charged a \$10 late fee.

Senior Center Memberships

Free for Glendale Heights Residents/\$25 for Non-Residents for the year

Are you interested in becoming a member of the Center for Senior Citizens? The Glendale Heights Center for Senior Citizens is a community gathering place where those ages 60 or better can come together and enjoy staying mentally, physically, and socially engaged through a variety of programs, services and activities. As part of your membership, you will receive the quarterly Senior Newsletter mailed directly to your household and will be eligible to participate in an array of activities at the Center every day, including use of the library, game room and craft room. A membership also allows you access to use the walking track and walk the upstairs hall at the Sports Hub during the week day hours. Please see Center staff for more information.

Remember, memberships need to be renewed annually in person to be an active member here at the Center for Senior Citizens!

Death Trap

at Drury Lane

Thursday, August 11

Bus leaves at 10:30 am • Lunch at 11:30 am

Play at 1:30 pm

\$54 without a ride/\$57 with a ride*

*Price includes lunch and performance

A hugely popular stage and screen mystery. Deathtrap offers skillful blending of two priceless theatrical ingredients: gasp-inducing thrills and spontaneous laughter. Unknown dramatist Clifford Anderson has sent his new thriller to award-winning Broadway author Sidney for comment – or has he? Without a success to his credit for some years, Sidney plots with his reluctant wife Myra how to plagiarize 'Deathtrap'. When Clifford turns up to discuss the play with the 'Master', events take a sinister turn.

KANE COUNTY COUGARS GAME

Tuesday, August 2

Bus leaves at 10:30 am, Game starts at Noon

Let's play ball! We're taking you out to the ballgame for a day of fun. Don't forget your glove, we've got all other bases covered. The Cougars will be taking on the Clinton Lumber Kings. A free hot dog and a small soda will be provided.

Cost: \$13.50 Register By: 7/26

MACKINAC ISLAND, MI

September 19th - 23rd

Single - \$619

Double - \$469

Full payment due July 12

Take in the beautiful sights of Mackinac Island with various guided tours and a stop at a local casino. Price includes transportation, lodging, eight meals and much more.

Community Room Rental

Are you looking for a party room to rent for your next gathering? Look no further than the Center's Community Room. From kid's parties to weddings, you can book the room for any event. Seating up to 130 guests! Our friendly staff will work with you to make your party a success. Call 630.260.6050 for more information.

Senior Transportation

The Center for Senior Citizens offers curb to curb transportation to our Center, doctor's appointments and area businesses according to the Senior Center's transportation schedule for members that live within Glendale Heights. All routes are \$1.50 per destination. Schedule your reservation 48 hours in advance of the desired trip by calling 630.260.6050.

Thank You!

17th Annual Charity Golf Classic

The Village of Glendale Heights, the Glendale Heights Chamber of Commerce, and FOP Lodge 52 thank everyone that helped to make the 17th Annual Glendale Heights Charity Golf Classic a great success as thousands of dollars were raised for the FOP Lodge 52 Community Enrichment Fund, the Glendale Heights Chamber of Commerce Scholarship Fund and Make-a-Wish Illinois. Without our sponsors and community support, this event would not be the success it has been over the years.

Private Golf Lessons

2016 Private Golf Lessons are available for 1 – 4 players. Learn the rules of the game, etiquette, putting, chipping, and the full swing. Private lessons offer the opportunity for one-on-one focused learning. To schedule your lesson please call 630.260.0018 and ask for Steve!

Links N' Lures

Sunday, July 24
3:00 pm Shotgun Start
\$35 per person

Includes: golf, cart, fishing & dinner buffet

Ever wanted to combine golf and fishing? Join us for our 4th Annual Links N' Lures golfing and fishing event! The golf portion will be a 9 hole/2 Person Scramble Format with a 3:00 pm shotgun start. Links N' Lures is limited to 36 teams!

Note: Must provide own fishing equipment and bait. Both live or artificial are allowed.

Water Conservation

Residents, property owners, renters, or property managers are reminded that on May 1st, the Village of Glendale Heights began its Outdoor Water Usage Schedule for water conservation measures per Title 9-2-3 of the Village Code, whereby persons or entities owning or controlling property in the Village may use water for outdoor water sprinkling and/or other large consumption purposes on designated days and times. This schedule shall remain in effect until September 30. Unless otherwise provided, the following outdoor water usage schedule shall apply:

- Outdoor water use is permitted between 6:00 am - 10:00 am & between the hours of 6:00 pm - 10:00 pm.
- Odd number street addresses are permitted to water on odd days of the month.
- Even number street addresses are permitted to water on even days of the month.

For water conservation tips, you may visit www.glendaleheights.org/Goes_Green/water_conservation.html or the DuPage Water Commission's website at www.dpwc.org/conservation/.

Street Division

Motorists traveling Glendale Heights' roads are asked to recognize the importance of slowing down in work zones. Motorists should drive with focus as they approach, enter and travel through work zones for their own safety and the safety of others. Distracted driving contributes to 25% of all police reported traffic crashes according to the National Highway Traffic Safety Administration (NHTSA). Be patient as most of the time work zones require lane closures. Remain alert in case you need to slow down or stop due to traffic or construction work.

Fullerton Ave. Road Construction

A major road project is being undertaken through the Community Development Block Grant (CDBG) project, which uses in part, grant money administered by DuPage County. This road project involves the reconstruction of Fullerton Avenue east of Glenn Ellyn Road and resurfacing of Fullerton Court. Construction began June 20, 2016 and is scheduled to be completed, weather dependent, the week of August 22, 2016.

Summer Tire Tips

Checking your tires is crucial in the summer. Long road trips with heavy loads and high temperatures can stress your tires to the max. Make sure that you have the correct amount of tire pressure in your tires at all times.

Also, don't forget to check the spare. Over time, the spare loses air and won't be much use if flat.

G. Stanley Hall School Tours the Water Pollution Control Facility

As part of National Public Works Week, on May 20, 2016, the WPCF hosted G. Stanley Hall School for their annual 5th grade tour. It is a very popular event for the students as they learn about the entire water treatment process. They even get an opportunity to look under a microscope at the microorganisms that helps process the waste. In addition, students learn that the water discharged into the East Branch of the DuPage River is cleaner than the river water.

Glendale Heights Police Department

300 Civic Center Plaza • Glendale Heights, IL 60139

www.glendaleheights.org/policedept

Glendale Heights Cooling Shelters

As you know, the summer months can bring extremely hot temperatures and dangerously high humidity to the area. Small children, senior citizens, and persons suffering illness or disability are especially vulnerable to extreme heat and humidity. The Glendale Heights Police Department is asking residents to please check on their relatives, friends, and neighbors to ensure their well-being and safety. During these long hot summer days, please be reminded of the following tips for staying cool this summer:

- Be aware of the heat. Pay attention to it, and modify your activities appropriately
- Pay attention to your hydration status, and be sure to drink plenty of fluids
- Try to stay in relatively cool areas, even when outside. Many public places such as libraries, shopping malls and movie theatres are air conditioned.
- Avoid hot enclosed places, such as cars. Never leave children unattended in a car parked in the sun.
- Use a fan, if available
- Stay on the lowest floor of your building
- Eat well-balanced, light, regular meals
- Wear loose-fitting, lightweight, light-colored clothing
- Cover windows that receive a significant amount of sun with drapes or shades to help keep your house cool
- Weather stripping and proper insulation will keep cool air inside your home
- Cool beverages are good for cooling down the body, while alcoholic drinks can impair the body's ability to regulate its temperature

Glendale Heights will activate a temporary cooling shelter to assist our community when weather conditions present such a need. For additional information about cooling shelters, please call the Police Department's non-emergency number at 630.260.6070 and as a reminder, in ANY emergency you are encouraged to call 9-1-1 for immediate assistance.

Have a safe, enjoyable and cool summer!

Police Survey

The Glendale Heights Police Department wants to hear from you! Please take a moment and fill out our online survey and let us know how we can better help serve you. The safety of our residents and the community is our #1 concern and we need your feedback to help us improve. Please visit:

www.surveymonkey.com/r/GHPoliceSurvey

or

www.Facebook.com/VOGHNews

to access the survey. Or scan the QR codes using a QR Code scanner app available for free to download.

Congratulations on Your Retirements Deputy Chief Ewoldt and Officer Toigo

The Village of Glendale Heights and the Glendale Heights Police Department would like to congratulate Deputy Chief Steve Ewoldt and Officer Wendy Toigo on their recent retirements from the Glendale Heights Police Department. Thank you for your service and dedication to the Glendale Heights Community!

Tele-Fraud Tips

- Be skeptical of offers that sound "too good to be true" ... they usually are.
- Resist high-pressure sales tactics. Don't allow yourself to be hurried into a decision.
- Do not give your credit card number or checking account information to anyone over the phone unless you know with whom you are dealing.
- Don't spend or invest more than you can afford to lose.
- Companies should be willing to provide their name, address, phone number and references. If not, be skeptical and verify their information before making a purchase.
- If you are skeptical about a company, check with the Better Business Bureau before you make a purchase.

Report incidents of telemarketing fraud to your local Better Business Bureau or the Police Department.

Fireworks Safety

Fireworks are often used to mark special events and holidays. However, they are not safe in the hands of consumers. The Bloomingdale and Glenside Fire Protection Districts and the National Fire Protection Association (NFPA) are opposed to consumer use of fireworks, and the **use of fireworks is illegal in Illinois!** Fireworks cause thousands of burns and eye injuries each year. Even sparklers burn hot enough to cause third-degree burns. People can enjoy the holidays if they remember the following:

- Fireworks cause an average of almost 20,000 reported fires per year.
- In 2013, sparklers caused 41% of fireworks injuries.
- Be safe. If you want to see fireworks, go to a public show put on by experts.
- Do not use consumer fireworks.
- Keep a close eye on children at events where fireworks are used.

For more information about fireworks safety or other safety information, visit our websites at www.glensidefire.org or www.bloomingdalefire.com.

Crime Prevention Tips

As with most crimes, PURSE & WALLET THEFTS are a crime of opportunity. Criminals are attracted to targets that are easy and inviting. Your best defense is to take steps to make your property uninviting to criminals. In other words, the harder you make it, the less likely you are to become a crime victim. Purse/wallet thefts lead to various other crimes such as Credit Card Fraud, Forgery and Identity Theft. Below are a few theft prevention tips:

- When shopping, do not leave your purse/wallet unattended.
- Carry money, identification and credit cards in your pocket.
- Always keep your purse/wallet closed.
- Do not keep your Personal Identification Numbers (PIN) in your purse/wallet.
- Keep your car keys and your house keys on two separate key rings.
- Don't carry large amounts of cash.
- Keep a list or photocopy of all credit and identification cards.
- Do not put your social security card in your purse/wallet.
- Do not leave your purse in plain view in your car.

Citizen's Police Academy

Tuesday's, September 6th - November 8th 6:00 pm - 9:00 pm
Police Department Training Room • FREE

The Glendale Heights Police Department will host their 19th Citizen's Police Academy. The program taught by officers from the Glendale Heights Police Department along with guest instructors from other agencies, is designed to give residents a realistic view of police work by providing instruction on various police topics.

A minimum enrollment of 10 students is required to hold the Academy, and the maximum class size will be limited to 24 students.

Enrollment is free. Citizens 18 years of age or older who live or work in Glendale Heights are invited to attend. *Note: Due to the nature of the course and curriculum, individuals with prior felony arrests or convictions will be declined.

Applications for enrollment are due no later than August 26, 2016. Interested persons are encouraged to contact Sergeant George Pappas at 630.909.5442 or Maureen Pope at 630.909.5407 for additional information or an enrollment application. Applications can also be downloaded and printed from the Village website, but must be dropped off or mailed to the Police Department once completed.

FlowRider at GH₂O

FlowRider Competition

Saturday, August 13
2:00 pm

Register at the Aquatic Center by 1:30 pm or pre-register at the Sports Hub. Win a GH₂O gift pack or \$20 gift card! Panel of three judges will score participants in two divisions: flow board and stand up. All participants will have 60 seconds to show their skills. Top scorers will compete in the final round for a prize in each division.

Special Events

- July 4 - 4th of July Celebration
- July 9 - Boat Races
- August 6 - Fiesta Day
- August 13 - FlowRider Competition

Swim Lessons

(Ages 8 months and up)

Learn to swim this summer no matter what level you are! Classes run Monday through Thursday for two week sessions throughout the summer. Each participant will receive a certificate indicating this progress. All classes include a lesson on water safety. Visit www.ghprf.com or call the Sports Hub at 630.260.6060 to find the right class for you.

Flow Rider Lessons - Learn to Catch the Wave

Classes are held Monday through Thursday for two weeks. Fridays are reserved as make-up days if class is canceled. The Pool Manager holds final authority to cancel or postpone classes. In case of inclement weather, please call 630.260.6000 x 3342 for the status of your lesson. Instructors give equal time to students and develop lessons to specific student's level of experience. Stand up lessons taught with signed waiver and instructor permission. Maximum of 5 students per class.

Surf Club

Join Surf Club for exclusive rights to the Flow Rider and the ability to practice stand-up riding.

Try stand-up surfing for the day while the pool is open to the public with a signed waiver and purchased wristband (\$5 per day pass). Ask at the pool front desk for details!

Surf Club Hours

7:00 am - 8:30 am; 11:00 am - 12:00 pm; 7:00 pm - 8:30 pm
(Monday - Friday)

5:30 pm - 7:00 pm (Sundays)

Fee: \$50.00 (Aquatic Center Members ONLY)

Surf Club runs June 4th through August 21st (No Surf Club on July 4th)

Paint Reuse & Recycling Tips

Got Paint? Do you have paint leftover and are not sure what to do with it?

Latex paint

Latex Paint is not a hazardous material and therefore may be discarded in the trash when properly prepared per Republic Services requirements for residential curbside collections. Residents must mix in sand, dirt, kitty litter or oil dry to soak up the paint, until the substance has turned into a dry paste and hardened. The can should then be placed next to the cart/tote, with the top off. This allows the driver to verify that the material has been prepared properly. Once the driver confirms that the material is suitable for disposal, it will be placed in the carts. Failure to adhere to this protocol poses a safety hazard to the driver and to the community it serves. For further questions, you may contact Republic Services (847) 981.0091.

DuPage County Latex Paint Re-Use/Recycling Program

Residents can drop off their usable, unwanted latex paint during the designated summer collections free of charge at the Woodridge Greene Valley Wastewater Treatment Facility 7900 S. Route 53, Woodridge.

Hours:

July 1st – July 29th

Mondays – Fridays: 8:00 am – 2:00 pm

Saturdays: 8:00 am – 2:00 pm

Usable paint is paint that has not been frozen, is less than 10 years in age and has not been mixed with other products.

Free Recycled Latex Paint - Recycled paint will be distributed to residents for free during the same hours of collection. Paint is offered free of charge to any resident, business, non-profit, etc. in 5-gallon containers.

Oil Based Paint, Paint Thinners, Stain and Varnish Finishes are Toxic.

Residents are encouraged to drop-off unwanted, oil based paint at the Regional Household Hazardous Waste Facility, located at 156 Fort Hill Drive in Naperville. This is a drive through, drop-off facility, open every Saturday and Sunday from 9:00 am- 2:00 pm, excluding Holidays. For more information, and a complete list of accepted hazardous materials, visit www.naperville.il.us/hhw.aspx or call (630) 420.6095, during weekdays. This facility is funded by the Illinois Environmental Protection Agency, DuPage County and neighboring government agencies.

Tips to better manage use of latex paint!

When painting a room, buy what you need and not just what is on sale. Save leftover paint in a glass jar with minimal air space for touch ups. Label the jar for which room the paint was used or keep in the room itself. Do not store paint in the garage -once frozen it is not reusable.

Marquardt Middle School Earns Water Quality Flag

On Wednesday, May 25th, Marquardt Middle School was awarded their first ever Water Quality Flag presented by SCARCE.

The students at Marquardt Middle School were honored as they worked very hard learning about the steps required to make water clean and potable. Throughout the day, the students showcased their water quality steps project, displayed their painted and custom designed rain barrel, and pledged to raise \$15,000 over the coming years to help raise funds for digging water wells in South Sudan.

The students took great pride in knowing they are doing their part in helping the earth and other people throughout the world.

Congratulations Marquardt Middle School on your Water Quality Flag!

For more information, please contact Marquardt Middle School at 630.858.3850.

GLENDALE HEIGHTS

Known to many as one of the Western Suburbs' premier events, Glendale Heights Fest will be held on Wednesday, July 13 through Sunday, July 17 at Camera Park. Enjoy the carnival and rides, along with exciting entertainment and fantastic food booths.

Watch a breathtaking display of fireworks at dusk on Wednesday, July 13 and again on Sunday, July 17. Plan to spend a fun-filled time at Glendale Heights Fest with delicious food and entertainment for the entire family.

Carnival Wristband Days

Purchase a carnival wristband before July 13th and pay just \$20! Regular wristband sales are \$25 during the event. **A Wristband for unlimited carnival rides is honored on ONE of the following days and times:**

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – 7:00 pm
Sunday: 3:00 pm – 7:00 pm

Advanced daily pre-sale wristband vouchers are available through Wednesday, July 13.

Pre-sale wristband vouchers can be purchased at the following Glendale Heights locations: Village Hall, Center for Senior Citizens or the Sports Hub.

5-Day Mega Pass - Only \$70

The Mega Pass card (\$70) is valid for unlimited rides on all 5 days! Every Mega Pass holder will be required to take a picture for a Mega Pass Photo ID Card (Mega Passes are non-transferable, non-refundable and all parties must be present at the time of purchase) which will then be used to redeem a special wristband for EACH DAY.

Mega Passes are only available for purchase at the Glendale Heights Sports Hub during normal registration hours located at 250 Civic Center Plaza through Wednesday, July 13. Mega pass wristbands are honored on the following days and times:

Wednesday: 6:00 pm – 11:00 pm
Thursday: 6:00 pm – 11:00 pm
Friday: 6:00 pm – Midnight
Saturday: 3:00 pm – Midnight
Sunday: 3:00 pm – 7:00 pm

Note: Certain rides have height restrictions.

Glendale Heights Fest Hours

Wednesday, July 13	6:00 pm – 11:00 pm
Thursday, July 14	6:00 pm – 11:00 pm
Friday, July 15	6:00 pm – Midnight
Saturday, July 16	3:00 pm – Midnight
Sunday, July 17	3:00 pm – 11:00 pm

State Curfew for anyone under 17 years of age is 11:00 pm on Wednesday, Thursday and Sunday, and midnight on Friday and Saturday. Anyone under the age of 17 at the Glendale Heights Fest after Curfew must be with a parent or guardian, or will be in violation of curfew. The Curfew laws will be enforced by the Glendale Heights Police Department.

Print at Home

Buy and print your wristband vouchers at home! Avoid the long lines and buy and print your wristband vouchers before coming.

Visit www.glendaleheights.org/GH_Fest for more information!

For more information on Glendale Heights Fest, entertainment, food vendors and more, call Village Hall at 630.260.6000 or visit www.glendaleheights.org/GH_Fest

Safety First at Glendale Heights Fest

To keep all Glendale Heights Fest visitors safe, we have fenced in the entire Glendale Heights Fest grounds but there will be NO entrance fee. The following items will not be allowed on Fest grounds:

- Weapons
- Glass Bottles/Containers
- Illegal Substances
- Bicycles
- Outside Alcohol
- Animals/Pets (Except Service Animals)

NOTE: All bags, coolers and containers are subject to search. Bags will be checked prior to entering Glendale Heights Fest. Weapons and objects that appear to be weapons are strictly prohibited. Other items will be prohibited at the discretion of the gate security.

Selling Your Home

If you decide to sell your home in Glendale Heights, here are some steps that will help you in the process! First off, you are required to obtain a real estate transfer stamp, which may be done by following these simple steps:

1. Submit a completed Real Estate Transfer Certificate of Compliance Application a minimum of 21 days prior to closing, which is available online or at Village Hall.
2. Submit an inspection application fee of \$100.00 for a single family home.
3. An inspection will be scheduled when the application and fee is submitted.
4. When the inspection is conducted, you will be provided with a report of any items that need to be corrected. You may make the corrections and have a re-inspection, or the purchaser may sign a Guarantee of Compliance and post an escrow to guarantee that the work will be completed within 30 days.
5. A plat of survey of the property less than a year old must be submitted as part of the inspection process.
6. Once the inspection passes or the Guarantee of Compliance is signed and escrow posted, you may submit an application for the Transfer Stamp along with the following documentation:
 - a. Payment of the transfer tax prior to transferring title to or assigning the beneficial interest in a land trust. The fee is \$3.00 for every \$1,000.00 of value or fraction thereof.
 - b. A receipt of payment of the final water bill.
 - c. A copy of the original deed, which may be signed by your attorney.
 - d. A copy of the State Declaration, which may be signed by your attorney.

Once the fees and taxes are paid and the documentation is submitted, the Village will issue the tax stamp. For more information on this process, please contact Community Development at 630.260.6030.

Junior Woman's Club 2016 Scholarship

The Glendale Heights Junior Woman's Club proudly announces the recipient of the Susan E. Dees Memorial Scholarship for 2016 is Emily Marron.

Emily graduated from Glenbard North High School this spring. In the fall, Emily plans on attending the Florida Institute of Technology with a major in the field of Meteorology at their School of Engineering. Emily hopes to be able to intern at NASA, and attend graduate school somewhere in "tornado alley" to further her studies. With her degree in Meteorology, Emily hopes to eventually work for NASA as a Chief Meteorologist. Emily has achieved a strong level of academics and community involvement. Emily and her parents, Michael and Kathleen, are longtime residents of Glendale Heights.

By awarding a scholarship of \$2,000 to Emily, the Glendale Heights Junior Woman's Club hopes to help her achieve her academic and personal goals. Members of the Scholarship Committee selected Emily from a large number of qualified applicants. The Glendale Heights Junior Woman's Club Congratulates Emily and her family and wishes Emily much success in her future endeavors!

Village Receives Good Credit Check

Having regular checkups can keep us healthy. Keeping machinery in good working order through preventative maintenance checks is also a good practice. In much the same way, Village finances received a "credit" check-up from Moody's Investors Service this past May. In their annual issuer comment report, Moody's affirmed the Villages' excellent Aa2 bond rating, and said "Glendale Heights credit position is very strong, and its Aa2 rating is slightly above the US city median of Aa3."

Moody's Investors Service is a leading provider of credit ratings, research, and risk analysis, tracking approximately 11,000 corporate issuers, 21,000 public finance issuers, and 72,000 structured finance obligations.

For more information on the Village's Finances and the recent credit check, please call 630.909.5342.

Glendale Heights Foundation

The Glendale Heights Foundation (GHF) is a non-profit organization incorporated in 2003 to provide limited one-time emergency financial assistance to Village residents. The Foundation does not provide rent or mortgage payment aid. All assistance requests must be submitted in writing, including name, address, details about the emergency circumstances, and financial assistance requested. A GHF form can be downloaded from the Village website to submit a request for assistance from the Foundation. Send request to: Glendale Heights Foundation, P.O.Box 5280, Glendale Heights, IL 60139. Tax deductible donations are always welcome and graciously accepted.

Looking Ahead!

Annual Drinking Water Quality Report

Village of Glendale Heights

For the period of January 1, 2015 to December 31, 2015

Este Informe contiene informacion muy importante sobre su agua potable. Traduzcalo o hable con alguien que lo entienda bien.

ANNUAL DRINKING WATER QUALITY REPORT VILLAGE OF GLENDALE HEIGHTS For the period of January 1, 2015 to December 31, 2015

This report is intended to provide you with important information about your drinking water and the efforts made by the Village of Glendale Heights Water Division to provide safe drinking water. The source of drinking water distributed by the Village is purchased from the DuPage Water Commission.

For more information regarding this report, contact:

Name: Jeff McCumber, Utilities Division Manager- Facility # IL 0430400

Phone: (630) 260 6040

We are pleased to report that The Village of Glendale Heights' drinking water had no violations or exceeded any other water quality standard. No drinking water quality violations were recorded during 2015.

We want our valued customers to be informed about their water quality. If you would like to learn more, please feel welcome to attend any of our regularly scheduled Village Board meetings every first and third Thursday of the month. The meetings are held at Village Hall, 300 Civic Center Plaza, and begin at 7:30 p.m. You can also attend the DuPage Water Commission meetings. For information on when their meetings are scheduled, please call (630) 834 0100. The source water assessment for our supply has been completed by the Illinois EPA. If you would like a copy of this information, please stop by Village Hall or call our Utilities Division Manager at (630) 260 6040. To view a summary version of the completed Source Water Assessments, including: Importance of Source Water; Susceptible to Contamination Determination; and documentation/recommendation of Source Water Protection Efforts, you may access the Illinois EPA website at <http://www.epa.state.il.us/cgi-bin/wp/swap-fact-sheets.pl>

Source of Drinking Water

Lake Michigan water is supplied to the DuPage Water Commission from the City of Chicago. The City does all water filtration and treatment. The DuPage Water Commission adds chlorine and delivers the water through a series of water mains and storage tanks. The Village of Glendale Heights then delivers the water through several pump stations and storage tanks. The Village does not add chemicals to the water, but has the capabilities to do so.

The Illinois EPA considers all surface water sources of public water supply susceptible to potential pollution problems. Hence the reason for mandatory treatment of all public water supplies in Illinois. Mandatory treatment includes coagulation, sedimentation, filtration and disinfection. Primary sources of pollution in Illinois lakes can include agricultural runoff, land disposal (septic systems) and shoreline erosion.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally-occurring minerals and, in some cases, radioactive material, and can pick up substances resulting from the presence of animals or human activity.

Contaminants that may be present in source water include:

- Microbial contaminants, such as viruses and bacteria, which may come from sewage treatment plants, septic systems, agricultural livestock operations, and wildlife.
- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water runoff, industrial or domestic wastewater discharges, oil and gas production, mining or farming.
- Pesticides and herbicides, which may come from a variety of sources such as agriculture, urban storm water runoff and residential uses.
- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production, and can also come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally-occurring or be the result of oil and gas production and mining activities.

Drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline 1 (800) 426 4791.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. FDA regulations establish limits for contaminants in bottled water, which must provide the same protection for public health.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline 1 (800) 426 4791.

**CITY OF CHICAGO, DEPARTMENT OF WATER MANAGEMENT
SOURCE WATER ASSESSMENT SUMMARY
FOR THE 2015 CONSUMER CONFIDENCE REPORT (CCR)**

Source Water Location

The City of Chicago utilizes Lake Michigan as its source water via two water treatment plants. The Jardine Water Purification Plant serves the northern areas of the City and suburbs, while the South Water Purification Plant serves the southern areas of the City and suburbs. Lake Michigan is the only Great Lake that is entirely contained within the United States. It borders Illinois, Indiana, Michigan, and Wisconsin, and is the second largest Great Lake by volume with 1,180 cubic miles of water and third largest by area.

Source Water Assessment Summary

The Illinois EPA implemented a Source Water Assessment Program (SWAP) to assist with watershed protection of public drinking water supplies. The SWAP inventories potential sources of contamination and determined the susceptibility of the source water to contamination. The Illinois EPA has completed the Source Water Assessment Program for our supply. Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

Susceptibility to Contamination

The Illinois EPA considers all surface water sources of community water supply to be susceptible to potential pollution problems. The very nature of surface water allows contaminants to migrate into the intake with no protection only dilution. This is the reason for mandatory treatment of all surface water supplies in Illinois. Chicago's offshore intakes are located at a distance that shoreline impacts are not usually considered a factor on water quality. At certain times of the year, however, the potential for contamination exists due to wet-weather flows and river reversals. In addition, the placement of the crib structures may serve to attract waterfowl, gulls and terns that frequent the Great Lakes area, thereby concentrating fecal deposits at the intake and thus compromising the source water quality. Conversely, the shore intakes are highly susceptible to storm water runoff, marinas and shoreline point sources due to the influx of groundwater to the lake.

Further information on the City of Chicago's water supply's Source Water Assessment Program is available by calling the City of Chicago, Department of Water Management at 312-744-6635.

2015 Voluntary Monitoring

The City of Chicago has continued monitoring for Cryptosporidium, Giardia and E. Coli in its source water as part of its water quality program. To date, Cryptosporidium has not been detected in these samples, but Giardia was detected in 2010 in one raw lake water sample collected in September 2010. Treatment processes have been optimized to provide effective barriers for removal of Cryptosporidium oocysts and Giardia cysts in the source water, effectively removing these organisms in the treatment process. By maintaining low turbidity through the removal of particles from the water, the possibility of Cryptosporidium and Giardia organisms getting into the drinking water system is greatly reduced. Also, in compliance with Long Term 2 Enhanced Surface Water Treatment Rule (LT2ESWTR) Round 2, the City of Chicago has started the 24 months long monitoring program in April 2015, collecting samples from its source water once per month to monitor for Cryptosporidium, Giardia, E. coli and turbidity. Cryptosporidium and Giardia were not detected in these samples.

In 2015, Chicago Department of Water Management (CDWM) has also continued monitoring for hexavalent chromium, also known as chromium-6. USEPA has not yet established a standard for chromium-6, a contaminant of concern which has both natural and industrial sources. Please address any questions or concerns to DWM's Water Quality Division at 312-742-7499. Data reports on the monitoring program for chromium-6 are posted on the City's website which can be accessed at the following address below:

http://www.cityofchicago.org/city/en/depts/water/supp_info/water_quality_resultsandreports/city_of_chicago_emerigincontaminantstudy.html

2015 VIOLATION SUMMARY TABLE

We are pleased to announce that no monitoring, reporting, treatment technique, maximum residual disinfectant level, or maximum contaminant level violations were recorded during 2015.

**DATA TABULATED BY CHICAGO DEPARTMENT OF WATER MANAGEMENT
2015 WATER QUALITY DATA**

-Definition of Terms-

Maximum Contaminant Level Goal (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. MCLG's allow for a margin of safety.

Maximum Contaminant Level (MCL):

The highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Highest Level Detected:

This column represents the highest single sample reading of a contaminant of all samples collected in 2015.

Range of Detections:

This column represents a range of individual sample results, from lowest to highest that were collected during the CCR calendar year.

Date of Sample:

If a date appears in this column, the Illinois EPA requires monitoring for this contaminant less than once per year because the concentrations do not frequently change. If no date appears in the column, monitoring for this contaminant was conducted during the Consumer Confidence Report calendar year.

Treatment Technique (TT):

A required process intended to reduce the level of a contaminant in drinking water.

ND:

Contaminant Not Detected at or above the reporting or testing limit.

N/A:

Not applicable

Detected Contaminants

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
TURBIDITY DATA						
Turbidity (NTU/Lowest Monthly%)\leq0.3 NTU Soil runoff	N/A	TT (Limit 95% \leq 0.3NTU)	(Lowest Monthly %) 99.7%	99.7% - 100.0%		
Turbidity (NTU/Highest Single Measurement) Soil runoff	N/A	TT (Limit 1 NTU)	0.45	N/A		
INORGANIC CONTAMINANTS						
Barium (ppm) Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits	2	2	0.0201	0.0193 - 0.0201		
Nitrate (As Nitrogen) (ppm) Runoff from fertilizer use; Leaching from septic tanks, Sewage, Erosion of natural deposits	10	10	0.30	0.28 - 0.30		
Total Nitrate & Nitrite (As Nitrogen) (ppm) Runoff form fertilizer use; Leaching from septic tanks, sewage, Erosion of natural deposits	10	10	0.30	0.28 - 0.30		

TOTAL ORGANIC CARBON

TOC [Total Organic Carbon]

The percentage of Total Organic Carbon (TOC) removal was measured each month and the system met all TOC removal requirements set by the IEPA.

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
UNREGULATED CONTAMINANTS						
Sulfate (ppm) Erosion of naturally occurring deposits	N/A	N/A	27.2	18.8 - 27.2		
Sodium (ppm) Erosion of naturally occurring deposits; Used as water softener	N/A	N/A	8.48	8.04 - 8.48		
STATE REGULATED CONTAMINANTS						
Fluoride (ppm) Water additive, which promotes strong teeth	4	4	1.01	0.76 - 1.01		
RADIOACTIVE CONTAMINANTS						
Combined Radium (226/228) (pCi/L) Decay of natural and man-made deposits.	0	5	0.84	0.50 - 0.84		2/11/2014
Gross Alpha excluding radon and uranium (pCi/L) Decay of natural and man-made deposits.	0	15	6.6	6.1 - 6.6		2/11/2014

2015 Water Quality Data Table Footnotes

Turbidity

Turbidity is a measure of the cloudiness of the water. We monitor it because it is a good indicator of water quality and the effectiveness of our filtration system and disinfectants.

Unregulated Contaminants

A maximum contaminant level (MCL) for this contaminant has not been established by either state or federal regulations, nor has mandatory health effects language. The purpose for monitoring this contaminant is to assist USEPA in determining the occurrence of unregulated contaminants in drinking water, and whether future regulation is warranted.

Sodium

There is no state or federal MCL for sodium. Monitoring is required to provide information to consumers and health officials who have concerns about sodium intake due to dietary precautions. If you are on a sodium-restricted diet, you should consult a physician about the level of sodium in the water.

Fluoride

Fluoride is added to the water supply to help promote strong teeth. The Illinois Department of Public Health recommends an optimal fluoride range of 0.9 mg/l to 1.2 mg/l until November 2015. As of November 2015, the new recommendation is an optimal fluoride level of 0.7 mg/l

UCMR3 Compliance Reporting

In compliance with the Unregulated Contaminant Monitoring Rule 3 (UCMR3) as required by the EPA, the City of Chicago has monitored for 28 contaminants suspected to be present in drinking water, but that do not have health-based standards set under the Safe Drinking Water Act. The monitoring results were reported to the EPA. The list of UCMR3 contaminants that we have monitored included volatile organic chemicals, metals, perfluorinated compounds, hormones, 1, 4-dioxane and chlorate. The contaminants that were detected in this monitoring program are listed below.

Contaminant (unit of measurement) Typical Source of Contaminant	MCLG	MCL	Highest Level Detected	Range of Detections	Violation	Date of Sample
Chromium (ppb) Naturally-occurring element; used in making steel and other alloys	100	100	0.3	0.3 - 0.3		
Molybdenum (ppb) Naturally-occurring element found in ores and present in plants, animals and bacteria; commonly used form molybdenum trioxide	N/A	N/A	1.1	1.0 - 1.1		
Strontium (ppb) Naturally-occurring element; has been used in cathode-ray tube TVs to block x-ray emissions	N/A	N/A	120	110 - 120		
Vanadium (ppb) Naturally-occurring metal; vanadium pentoxide is used as a catalyst and a chemical intermediate	N/A	N/A	0.2	0.2 - 0.2		
Chromium-6 or Hexavalent Chromium (ppb) Naturally-occurring element; used in making steel and alloys	N/A	N/A	0.19	0.18 - 0.19		

Unit of Measurement

ppm	Parts per million, or milligrams per liter	%≤0.3NTU	Percent of samples less than or equal to 0.3 NTU
ppb	Parts per billion, or micrograms per liter	pCi/L	Picocuries per liter, used to measure radioactivity
NTU	Nephelometric Turbidity Unit, used to measure cloudiness in drinking water		

Village of Glendale Heights 2015 Water Quality Data

NO DRINKING WATER QUALITY VIOLATIONS WERE RECORDED DURING 2015

Regulated Detected Contaminants

Contaminant	Total Coliform Maximum Contaminant Level	Highest No. of Positive	Fecal Coliform or E. Coli Maximum Contaminant Level	Total No. of Positive E. Coli or Fecal Coliform Samples	Violation	Likely Source of Contamination
Coliform Bacteria	5% of monthly samples are positive	0	-	0	N	Naturally present in the environment

Lead and Copper

If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. We cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking.

If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Definitions:

Action Level Goal (ALG): The level of a contaminant in drinking water below which there is no known or expected risk to health. ALGs allow for a margin of safety.

Action Level: The concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Lead and Copper	Date Sampled	MCLG	Action Level (AL)	90th Percentile	# Sites Over AL	Units	Violation	Likely Source of Contamination
Copper	2014	1.3	1.3	0	0	ppm	N	Erosion of natural deposits; Leaching from wood preservatives; Corrosion of household plumbing systems
Lead	2014	0	15	0	1	ppb	N	Corrosion of household plumbing systems; Erosion of natural deposits

Regulated Contaminants

Disinfectants & Disinfectant By-Products	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Chlorine	12/31/2015	0.9	0.5 - 1.0	MRDLG = 4	MRDL=4	ppm	N	Water additive used to control microbes.
Haloacetic Acids (HAA5)	2015	16	10.74- 22.0	No goal for the total	60	ppb	N	By-product of drinking water disinfection
Total Trihalomethanes (TTHM)	2015	35	16.02 - 48.2	No goal for the total	80	ppb	N	By-product of drinking water disinfection

GLENDALE HEIGHTS STAND-BY WELLS

The Village of Glendale Heights' Stand-by Wells have been maintained in accordance with IEPA testing requirements and standards and are for emergency purposes only. The four Well sites are operated and tested without supplementing the Lake Michigan Water that we purchase and distribute from the DuPage Water Commission.

Inorganic Compounds are tests performed for stand-by wells, **which are not connected** to the distribution system and are for emergency purposes only.

*Arsenic –While your drinking water meets EPA standards for arsenic, it does contain low levels of arsenic. EPA's standard balances the current understanding of arsenic's possible health effects against the cost of removing arsenic from drinking water. The EPA continues to research the health effects of low levels of arsenic, which is a mineral known to cause cancer in humans at high concentrations and is linked to other health effects such as skin damage and circulatory problems.

INORGANIC CONTAMINANTS

Element	Collection Date	Highest Level Detected	Range of Level Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Arsenic*	2014	6.4	3.57 - 6.4	0	10	ppb	N	Erosion of natural deposits; Runoff from orchards; Runoff from glass and electronic production wastes.
Barium	2014	0.0334	0.0311- 0.0334	2	2	ppm	N	Discharge of drilling wastes; Discharge from metal refineries; Erosion of natural deposits.
Fluoride	2014	2.39	0.443 - 2.39	4	4.0	ppm	N	Erosion of natural deposits; Water additive promotes strong teeth; Discharge from fertilizer and aluminum factories.
Iron	2014	1.02	0.746 - 1.02	0	1.0	ppm	N	This contaminant is not currently regulated by the USEPA. However, the state regulates. Erosion of natural deposits.

Nickel**	2014	0.0321	0.0321	0.1	0.1	ppm	N	This contaminant is not currently regulated by the USEPA. However, the state regulates. Erosion of natural deposits; Catalyst production of organic chemical manufacturing
Sodium	2014	2520.0	38.4 -2520.0	0	0	ppm	N	Erosion from naturally occurring deposits; used in water softener regeneration.
Sulfate	2014	186	136 - 186	250	250	ppm	N	Sulfate is a substance that occurs naturally in drinking water.

** The MCL and MCLG for Nickel were remanded on February 9th, 1995. This means that while many water suppliers continue to monitor nickel levels in their water, there is currently no EPA legal limit on the amount of nickel in drinking water. The EPA is considering the limit on nickel.

Radioactive Contaminants	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely Source of Contamination
Combined Radium 226/228	2014	1.38	0 -1.38	0	5	pCi/L	N	Erosion of natural deposits.
Gross Alpha excluding radon and uranium	2014	2.5	-0.16 -2.5	0	15	pCi/L	N	Erosion of natural deposits.

Glendale Heights UCMR 3 Testing

In 1996 amendments to the Safe Drinking Water Act (SDWA) require that once every five years, the U.S. Environmental Protection Agency (EPA) issue a new list of no more than 30 unregulated contaminants to be monitored by public water systems (PWSs). The Unregulated Contaminant Monitoring Rule (UCMR) provides EPA and other interested parties with scientifically valid data on the occurrence of contaminants in drinking water. These data serve as a primary source of occurrence and exposure information that the agency uses to develop regulatory decisions.

The Village of Glendale Heights is classified under the UCMR 3 as an Assessment Monitoring (List 1) community, and is monitoring for 21 chemicals in 2015 as a part of the UCMR monitoring requirements established in 1996 by the U.S. EPA. These results are seen in the table below:

UCMR3 COMPLIANCE REPORTING

Element	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Likely Source of Contamination
Chromium	2015	0.5	0.3 - 0.5	100	100	ppb	Naturally-occurring element; used in making steel and other alloys
Molybdenum	2015	1.1	0 - 1.1	NA	NA	ppb	Naturally-occurring element found in ores and present in plants, animals and bacteria; commonly used form molybdenum trioxide used as a chemical reagent.
Strontium	2015	127.6	118.2-127.6	NA	NA	ppb	Naturally-occurring element; has been used in cathode-ray tube TVs to block x-ray emissions
Vanadium	2015	0.30	0.2-0.3	NA	NA	ppb	Naturally-occurring metal; vanadium pentoxide is used as a catalyst and a chemical intermediate
Chromium-6 or Hexavalent Chromium	2015	0.20	0.17 - 0.20	NA	NA	ppb	Naturally-occurring element; chromium - 3 or - 6 forms are used for chrome plating, dyes and pigments, leather tanning, and wood preservation.

**AS REPORTED BY THE DUPAGE WATER COMMISSION - (630) 834-0100
2015 Regulated Contaminants Detected**

Coliform Bacteria

Maximum Contaminant Level Goal	Total Coli form Maximum Contaminant Level	Highest No. of Positive	Fecal Coli form or E. Coli Maximum Contaminant Level	Total No. of Positive E.Coli or Fecal Coli form Samples	Violation	Likely Source of Contamination
0	0 positive monthly sample	0	Fecal Coliform or E. Coli MCL: A routine sample and a repeat sample are total coliform positive, and one is also fecal coliform or E. Coli positive	0	No	Naturally present in the environment

Regulated Contaminants

Disinfectants & Disinfection By-Products	Collection Date	Highest Level Detected	Range of Levels Detected	MCLG	MCL	Units	Violation	Likely source Of Contamination
Chlorine	7/31/2014	1.10	0.87 - 1.10	4	4	ppm	N	Water additive used to control microbes
Total Haloacetic Acids (HAA5)	2014	16.1	14.0 - 16.1	N/A	60	ppb	N	By-product of drinking water chlorination
Total Trihalomethanes (TTHMs)	2014	31.03	28.6 - 31.03	N/A	80	ppb	N	By-product of drinking water chlorination

Not all sample results may have been used for calculating the highest level detected because some results may be part of an evaluation to determine where compliance sampling should occur in the future.

Educational statements and conservation strategies for surface water may be obtained at
<http://www.preservingeverydrop.org/>

Note: The state requires monitoring of certain contaminants less than once per year because the concentrations of these contaminants do not change frequently. Therefore, some of this data may be more than one-year-old. **MCL (Maximum Contaminant Level):** The highest level of a contaminant that is allowed in drinking water. **MCL's** are set close to the **MCLGs** as feasible using the best available treatment technology. **MCLG (Maximum Contaminant Level Goal):** The level of contaminant in drinking water below which there is no known or expected risk to health. **MCLGs** allow for a margin of safety. **AL (Action Level):** The concentration of a contaminant which, if exceeded triggers treatment or other requirements which a water system must follow. **ppm:** parts per million, **ppb:** parts per billion, **ppt:** parts per trillion, **pCi/l:** picoCuries per liter (measurement of radioactivity)

2015 Water Quality Test Results:

Definitions: The following tables contain scientific terms and measures, some of which may require explanation.

Maximum Contaminant Level, (MCL):

The highest level of a contaminant that is allowed in drinking water. **MCL's** are set as close to the Maximum Contaminant Level Goal as feasible, using the best available treatment technology.

Maximum Contaminant Level Goal, (MCLG):

The level of a contaminant in drinking water below which there is no known or expected risk to health. **MCLG's** allow for a margin of safety.

mg/l: milligrams per litre or parts per million- or one ounce in 7,350 gallons of water.

ug/l: micrograms per litre or parts per billion- or one ounce in 7,350,000 gallons of water.

na: not applicable. **Avg:** Regulatory compliance with some **MCL's** are based on running annual average of monthly samples.

Maximum Residual Disinfectant Level (MRDL):

The highest level of disinfectant allowed in drinking water. There is convincing evidence that the addition of a disinfectant is necessary for control of microbial contaminants.

Maximum Residual Disinfectant Level Goal (MRDLG):

The level of disinfectant in drinking water below which there is no known risk to health. **MRDLG's** do not reflect the benefits of the use of disinfectants to control microbial contaminants.
