

**2011
GLENDALE HEIGHTS POLICE DEPARTMENT
ANNUAL REPORT**

**Michael S. Marron
Chief of Police**

**Prepared by Police
Department Staff**

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

March 1, 2012

Village President Linda Jackson and Board of Trustees,

Village Ordinance, section 10-1-9-4, requires the Chief of Police to provide the Village President and Board of Trustees with an annual report on the status of the Police Department. To that end my staff and I have prepared this annual report for calendar year 2011.

Accreditation

The Glendale Heights Police Department received its initial accreditation from the Commission on the Accreditation of Law Enforcement Agencies (CALEA) in December of 2008. A major goal of the Department and the Village for the past three years has been to remain accredited. Orders and Procedures are reviewed and updated on a regular basis and proofs of compliance have been routinely collected and filed in preparation for the 2011 reassessment. In August of 2011 two CALEA assessors evaluated every aspect of the Police Department's procedures and practices and recommended to the Commission that the Glendale Heights Police Department be reaccredited. In November of 2011 a hearing was held by the Commission to determine the status of our accreditation after which CALEA granted reaccreditation to our Department.

Reaccreditation is a credit to every member of the Police Department and reflects on the professionalism and service to which they have dedicated themselves to both Law Enforcement and the residents of the Village. This process is important to the community as it ensures our residents that the Glendale Heights Police Department is following the best practices in the law enforcement profession.

Crime Statistics

The majority of the pages in this report deal with the crime statistics in Glendale Heights and the activities of the Police Department. These statistics were compiled by Police Services Specialist ,Maureen Pope and Police Records, Supervisor Patrick McDonald.

Part I crimes are those that are most serious in nature and include, Murder, Robbery, Burglary, Theft, Aggravated Assault and Battery. There was a decrease in Part I crimes in 2011, 7.1%, compared to last year and a 25.8% decrease since 2005. There were 612 Part 1 crimes in 2011 compared to 625 in 2010. In 2011, 30.4% of Part I crimes resulted in an arrest compared with 21.0% in 2010 and 22.3% in 2009.

In 2009 Robbery, had a 37.5% increase; a disturbing trend as a majority of these robberies were occurring in neighborhoods and apartment complex parking lots. The Department tracked these incidents, made resource adjustments and conducted

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

surveillances in an attempt to combat the robberies. In 2010, Robberies were back to the previous average, with only 12 occurring, representing a 45.5% reduction; this trend continued in 2011 with only 10 robberies occurring in the Village, which is the lowest number since 2007.

Part II crimes are less serious but equally important. Part II crimes include Criminal Damage to Property, Deceptive Practice, Forgery, Liquor Law Violations, Identity Theft, Internet Crime and most Class A Misdemeanor Traffic Offenses. Part II crimes decreased by 11.2% this year as compared to the previous year. The clearance rate, by arrest, for Part II crimes in 2011 was 52.6% compared with 58% in 2010 and 47.1% in 2009.

There was a slight decrease in the number of calls for service in the Village. Calls for service include all calls to the Police Department for which a police report number is generated. There were 255 fewer calls for service in 2011 compared to 2010 and only 74 fewer than in 2009. There has been no change in the distribution of calls throughout the day; our busiest times are still between 10:00 AM and Midnight. While there are slightly fewer calls for service on Sundays, the remainder of the week has calls fairly evenly distributed.

Police Activities

The Police Department conducts other activities that are not included in the calls for service. These are activities for which police report numbers are not generated. Anti-gang watches were up 12.2% over 2010; Bar Checks were up by 1.1%; Extra Watches were lower by 2.7%, Traffic Stops were lower by 6.3%, Special Traffic Enforcement Zone Patrols were lower by 5.4% and there was a reduction in the number of foot patrols conducted of 14.7%. When combined with the calls for service, there was a 1.9% decrease in police activity as compared to 2010.

In 2011 the Police Department experienced a number of extended Family and Medical Leaves by members of the patrol division. Additionally, in 2010 the Department was two below its previously authorized sworn officer strength of 57. In 2011, the Department lost a patrol officer and patrol sergeant to retirement and due to the fiscal situation, has not replaced these officers. This puts the Patrol Division down a total of three officers and one sergeant. We have been operating with this staffing level since July of 2011. In 2011 the Department eliminated one school resource officer position in order to keep staffing levels in patrol at a level needed to maintain services and safety. Given the reduction in staff it would be expected that the activities enumerated above would show a decrease in activity. The activities above are conducted when there is unobligated patrol time. Little change in calls for service from the public as well as fewer personnel to handle those calls, results in less unobligated time for officers to conduct these discretionary activities.

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

Major investigations in 2011 included:

- Explosion - On February 16, 2011 at 0836 hrs, James F. Ziecina, 56, of 400 block of East Montana, caused an explosion while making homemade, commercial grade fireworks in his home. Amazingly, Ziecina managed to survive the blast but sustained very serious injuries. On the day of the incident, the Bureau of Alcohol, Tobacco Firearms and Explosives, the DuPage County Bomb Squad, and GHPD investigators recovered a considerable amount of commercial grade fireworks, a homemade "M-1000" (essentially a stick of dynamite), and a large quantity of flammable powders and explosive making devices/components from Ziecina's residence and home workshop. Subsequent interviews with family, friends and neighbors revealed that Ziecina was fascinated with fireworks and has been making his own for years. James F. Ziecina was charged with one count of unlawful use of weapon after his release from the hospital.
- Armed Robbery - On February 21, 2011 at 1524 hrs, officers were dispatched to Teresa's Discoteca, 2045 Bloomingdale Road for a report of an armed robbery. The business owner advised two Hispanic male subjects entered her store. One of the subjects displayed a handgun, put it against her head, bound her with duct tape, and the two offenders left the store with a laptop computer in a gray shoulder bag, U.S. currency and gold jewelry. The suspects fled through the parking lot and across Bloomingdale Road toward Gladstone Drive.

Both subjects were described as Hispanic males, approximately 20 years of age, black hair, 5'6", and thin. The first subject was wearing a black jacket, blue jeans, and a dark colored baseball cap with an unknown design on the front, and had a small dark colored handgun. The second suspect was wearing a dark colored zippered sweater, a baseball cap and blue jeans. One of the subjects has subsequently been identified and is in the DuPage County jail awaiting trial. The Department is still attempting to identify the second subject.

- Theft - On March 4, 2011, a report was taken of an employee theft at Omron Corp, 240 Windy Point Drive. Omron managers believed an employee had been stealing items from their warehouse for about 5 years and selling them on E-Bay. Omron believed total retail value of theft is over \$150,000.00. As a result of this investigation an employee Trung M. Pham was identified as a suspect. A search warrant was conducted at Pham's residence and many pieces of electronic equipment belonging to Omron Corp were located. As a result of the investigation Pham was charged with one count of Theft between \$10,000.00 and \$100,000.00, a class 2 felony.
- Aggravated Domestic Battery - In the early morning of July 14, 2011 police officers were notified of an Aggravated Domestic Battery. The victim was severely beaten by her boyfriend, Jordan Ratley, and forcibly removed her from her friend's apartment in the 1800 block of Somerset Drive. Ratley was captured by alert DuPage County Sheriffs Department Deputies at Army Trail Road and Swift Road; the victim was located in the fetal position on the floor of the vehicle. The victim was taken by ambulance to Alexian Brothers Medical Center and then transferred to Loyola Medical Center to better treat her injuries. Jordan Ratley was ultimately arrested and charged with Aggravated Domestic Battery and Home Invasion. He is currently incarcerated in the DuPage County Jail awaiting trial.

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

- Home Invasion / Aggravated Battery - On September 3, 2011 at 0028 hrs, officers responded to 1100 block of Harbor Court for a female who had just been stabbed. Upon arrival they located the victim who had a stab wound to her left arm. She advised her ex-boyfriend, George Hooper, forced her into her residence. He pushed her into the bedroom and began to strike her. She was able to contact a friend who responded to the scene. Hooper was confronted and upon exiting the residence he used a letter opener to stab the victim in the left arm. Hooper fled the scene.

Using cell phone tracking technology Detectives were able to track Hooper to the Detroit Michigan area and then eventually back to Chicago. Once Hooper arrived back in Chicago he was arrested by Glendale Heights Police Officers with assistance from Chicago Police Department. Hooper is currently incarcerated at the DuPage County Jail awaiting trial.

- Aggravated Discharge of a Firearm - On October 23, 2011 at 0333 hours our department responded to the intersection of Bloomingdale Road and Altgeld for the report of shots fired. It was learned a party had taken place at a home on the corner and members of the Latin Kings and Latin Counts attended the party. A fight broke out in the basement between the Kings and Counts, which led to words being exchanged outside. Latin Counts called for a ride and as the ride pulled up to the intersection 5 to 6 gunshots were fired towards the Latin Kings who were in front of the residence. The only damage was to two vehicles parked in driveways, no injuries were reported. This case is still being actively investigated. Suspects have been identified.
- Armed Violence/Aggravated Battery - On November 6th, 2011, officers responded to the 1200 block of Chappel Court for the report of a violent domestic involving a gun. Upon arrival officers met with Dominic Haywood and his live-in-girlfriend. Haywood had just entered his car and placed a handgun in his trunk. After a lengthy investigation Haywood was charged with and indicted for 2 counts of Armed Violence, 4 counts of Aggravated Domestic Battery, 6 counts of Aggravated Battery and 2 counts of Unlawful Restraint. Haywood is currently incarcerated at DuPage County Jail awaiting trial.
- Death Investigation - *On December 16, 2011 officers responded to the grass area between Lake Becerra and the Historical House for the report of a female who was deceased lying in the grass. The deceased is identified as Carol Calzaretto, 39 years of age and a resident of Glendale Heights. Her vehicle was located in the parking lot of the Historical House. There were no signs of violence to the body and no suicide note was located. The Coroners Office has officially listed the cause of death as accidental due to the high level of intoxicating compounds in the deceased's blood.*

Traffic

There was a 6.3% decrease in the number of traffic stops made by the Department however there was an 11.3% increase in the number of traffic tickets issued compared with 2010, the number of DUI arrests were down 9, a 6.8% reduction. Overall our DUI's have gone down 19.7% since 2008. As reported by the Chicago Tribune, this reduction in the number of DUI's has been occurring all over the State with an approximate 16% reduction Statewide since 2006.

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

Some reasons for this reduction include fewer officers, increased penalties, the economy, and the lack of, the DUI overtime grant. According to an article in the Chicago Tribune by Robert McCoppin on December 19, 2011:

“...The latest numbers show a drastic reduction in drunken driving in Illinois. Between 2007 and 2010, drunken driving arrests fell 16 percent, and the number of fatalities from alcohol-related crashes dropped 33 percent, according to figures from state police and the Illinois Department of Transportation. Fatalities this year have fallen even further in preliminary reports, to less than half of what they were just three years ago.

Anti-drunken driving advocates maintain the decrease is tied not just to societal shifts but to the strengthening of DUI laws and their enforcement. Other observers point to the economic downturn that has resulted in fewer people going out drinking.

Laws aimed at curtailing drunken driving — like increasing penalties for offenders — fueled drops in DUI arrests and alcohol-related fatalities nationwide in the 1980s and '90s, according to Mothers Against Drunk Driving. Illinois lowered its legal blood-alcohol content limit to 0.08 from 0.10 in 1997, and statewide drunken-driving arrests increased from 44,710 in 1996 to nearly 50,000 in 1999, according to state figures. That number hovered around 50,000 for several more years until the notable drop-off that has occurred since 2008 — around the start of the economic downturn.”

Traffic tickets and traffic stops have fallen statewide. A Chicago Tribune article By Melissa Jenco and Joe Mahr published on January 8, 2012 stated:

“The analysis of state data revealed that in many municipalities across Illinois, motorists were less likely to be stopped by police in 2010 than in 2008. Stops dropped nearly 6 percent statewide and ticketed drivers fell 11 percent — while traffic levels remained relatively even during those years. That meant drivers had a smaller chance of getting stopped and, if stopped, a smaller chance of getting a ticket.”

Contrary to the State trend traffic tickets issued increased in Glendale Heights during 2011.

The number of traffic accidents in the Village had dropped for three years in a row, dipping solidly below 1,000 in 2009. The total number of reported accidents in 2010 was 1037, a 10.8% increase, but in 2011 we had another dip in the number of accidents, once again going below 1,000 with 975, a 6% reduction. The number of accidents involving an injury rose sharply, going from 85 in 2010 to 162 in 2011. We will be looking at the reasons for this and taking action to try and reduce this number. It continues to be a goal of the Police Department to decrease the number of accidents through enforcement and education.

There was one fatal accident in 2011, down from the four fatal accidents the previous year.

- On October 31, 2011, at approximately 7:00 PM, a pedestrian was struck and killed as he tried to cross Glen Ellyn Rd. just south of the intersection with Fullerton Avenue. The pedestrian was wearing dark clothing and was crossing in a dimly lit area of the street and without aid of a crosswalk or traffic signals. The driver of the vehicle was not cited.

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

The intersections of Bloomingdale and North Avenue and Glen Ellyn and North Avenue tied as top spots for traffic accidents in 2011 with 13 accidents. They were followed closely by the intersection of Bloomingdale Road and Army Trail Road with 10 accidents. The Department will continue to identify and implement methods to decrease the number of accidents in the Village. It is important that motorists and pedestrians can safely navigate our roadways.

You will note that parking tickets issued in 2011 rose significantly with over 11,500 parking tickets being issued. One reason for the increase was the newly enacted parking ban on certain days for street maintenance. Even with the changes that were instituted in the ordinance over 2,000 parking tickets were issued for this violation. Additionally, there was a marked increase in the number of tickets issued relating to Village Sticker violations, which includes the overnight parking. Village sticker tickets were up 28% with over 2,700 being issued and there was a 27.8% increase in the number of tickets written for overnight parking. Overall there was a 44.5% increase in the number of parking tickets issued in the Village, the three offenses enumerated above accounted for 64.2% of the violations for which parking tickets were issued.

Traffic Stop Statistical Study

The State of Illinois is in the eighth year of collecting data on traffic stops made by police officers throughout the State. The data is analyzed each year by the Northwestern University Center for Public Safety to determine if minority drivers are being stopped at a higher rate than white drivers. When the study first started, Northwestern University analyzed the 2000 Census numbers and determined the driving population for each municipality in the State by race. Since that time, these numbers have been used to analyze our traffic stop data. Now that the 2010 Census has arrived we would like to use the data to make our comparisons, however, Northwestern has not completed their analysis of the Census data to determine our driving population for each race or ethnicity. We have compared 2011 traffic stops to the only adjusted Census we have access to which is 2000. When compared to the 2000 Census, whites were stopped 57.7% of the time and represent 58.9% of the driving population indicating a disparity index of .98 meaning that whites are slightly underrepresented in our stops. The non-white disparity index is 1.02 indicating they are slightly overrepresented in our traffic stops. However, one must then take the following into consideration:

- The 2010 Census reported that the population of Glendale Heights increased to 34,208 marking a 7.7% increase. The Census reported the following races that make up the 34,208 population:
 - White population at 17,953 marking a 11.4% decrease
 - Black/African American population at 2,005 marking a 30.4% increase
 - American Indian/Alaska Native at 206 marking a 116.8% increase
 - Asian at 7,575 marking a 19.4% increase

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

- Native Hawaiian/Other Pacific at 24 marking a 4% decrease
 - Other Race (alone) at 5,271 marking a 104.6% increase
 - Two or more races at 1,174 marking a 27.1% increase
- The census reports a population of 10,512 Hispanic or Latino marking a 79.9% increase over the 2000 census. It does not consider this as a race however and counts Hispanic as an ethnicity that is already included in the races listed above.

Per the latest legislation, the study is slated to end in 2014. The Glendale Heights Police Department has a strict policy which prohibits all racially biased policing.

Communications

In 2011 the Communications Center handled 15,123 emergency calls for service as well as 32,720 non-emergency and administrative calls. During the course of the year, telecommunicators are tasked with making a number of phone calls to tow companies, other agencies and a myriad of other calls in support of the police officer on the street. There were 22,058 of these outgoing phone calls for a total number of calls handled in the Communications Center of 69,922; that averages a call going into or out of the Communications Center every 7.5 minutes. This represents a reduction in the call volume of 4.8% in the Communications Center. When considering the workload in the room, one must also take into consideration the radio traffic. The Police Department takes measures to ensure that the quality of the call taking in the Center is maintained. Supervisors make random checks of the tapes to ensure quality. Given the capacity handled by our Communications Center, it is easy to see why we have struggled to maintain full staffing in the room. The Communications Center operated the majority of the year at a staffing deficit due to an open position and an extended FMLA leave by one of the members. As of March 1, 2012 the Center is at full staff.

Use of Force

The Department's review of its Use of Force for 2011 showed an increase of eight reported incidents. There were 44 reports of force being used against arrestees compared to 36 last year; based on the 18,428 incidents handled, that is a .24% rate of force used per incidents handled. This is a nominal increase from last year's rate of .19%. In the 44 use of force incidents, 49 individuals were involved. Of those 49 individuals, nine reported they were injured during the incident. Of those nine individuals, three were transported to the hospital for treatment. Of the three transported, two individuals were kept in the hospital; both were due to their level of intoxication. Twenty-two of the individuals, or 45%, whom force was used against were under the influence of alcohol and/or drugs. In 2011, eight officers sustained minor injuries as a result of these 44 use of force incidents.

Each use of force is reviewed by the immediate supervisor and then by a Use of Force Review Board to determine whether or not the force used was objectively reasonable,

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

complied with State Law and Department Policy. All uses of force were determined to be within the law and Department policy.

Training

The Glendale Heights Police Department continues to make training its officers a top priority. Police Officers are given the authority by law to take a person's freedom away, pursue fleeing violators, use force to make an arrest and in extreme cases are authorized to take a life if necessary. No other profession has the power afforded to the Police. It is important that Police Officers are consistently trained and kept up to date on new laws and techniques and are refreshed on skills not used often but that are necessary, commonly referred to as low frequency, high liability skills. To continue the training process the Department established a training committee to identify training needs and curriculum that will keep officers fully trained professionals. The Training Committee has developed a training program that schedules training through the next several years to ensure that our officers and employees remain highly skilled. In 2011 nearly 2,500 hours were spent in some form of training, which ranged from Management Training, language, Defensive Tactics, tactical response, NIMS training, traffic enforcement, DUI enforcement, new laws, policies and procedures training, among other topics. A well trained police department is essential to providing quality law enforcement service to the community.

Community Involvement

In 2011, the Police Department continued to participate and facilitate events that reach out to the public to foster community involvement. School Resource Officers conducted hundreds of D.A.R.E. classes in our primary schools. The Department also ran five, week long, Safety Town classes. In addition, members of the Department conducted the 7th annual Jr. Police Academy, designed for 5th through 8th graders. Students are exposed to a variety of police training that includes, testing to be a police officer, evidence work, and making traffic stops.

The Department continues to stay in touch with the community through the Neighborhood Watch program. Meetings are held on the 4th Wednesday of every month in the Council Chambers. Attendees are shown a presentation which includes a synopsis of crimes that occurred during the past month and are treated to guest speakers. Through Neighborhood Watch meetings trouble spots in the Village come to light. In 2011 the Department made crime mapping software available on our website which allows residents to call up incidents that have occurred in their neighborhoods at their convenience from their homes.

The Department implements the CODE RED emergency community notification system. This system allows the Police Department and the Village to notify the residents of emergencies that may be occurring in the Village. It can do a Village-wide notification or can be tailored to specific areas, depending on the incident. This system is also used to do well-being check phone calls to our senior citizen population during extreme weather situations.

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

Members of the Police Department attended numerous park parties and many neighborhood block parties during the year. In August, the Department threw the largest block party of the year at Camera Park, in honor of National Night Out. Free hamburgers, hot dogs and beverages were distributed to those residents attending. There were booths with information to increase awareness of crime, McGruff the crime dog made an appearance. The Illinois Treasurer's Office set up shop to help residents check for their names on the unclaimed funds registry and the Glenside Fire Department brought some of their apparatus for display. Munters Moisture Control (now Polygon) sponsored a shredding event at National Night Out again this year. The event was attended by over 400 residents despite the threatening weather.

years.

A Citizens Police Academy was conducted from September through November and eight residents graduated at a banquet in their honor in November. We hope interest continues for this program into the coming

The Police Department continues to take advantage of the Village's web site and the skills of the Public Relations Department to better communicate with the public. Crime alerts are posted and press releases are available on the Police Department's site. We have posted the annual report on the site to continue to inform residents of what is occurring in their community. We have found this to be a valuable tool in working in partnership with the community.

Major Accomplishments

In addition to the CALEA project, and dealing with day to day operations, the Police Department initiated and completed several important projects during 2011.

- We began construction on the new police facility in March of 2011 and expect to have phase one complete in May of 2012.
- Early in 2009 the Village established the Citizen Corps Council which cleared the way for the establishment of the Villages CERT group. The Police Department held its first Citizen's Emergency Response Team training class in 2009. In 2011 the Department held one additional class training 8 more residents in emergency preparedness. Quarterly training was also held for alumni of the CERT program.
- The Police Department teamed up with Glenbard School District 87 to sponsor an Alcohol Awareness program for parents. The program was held at Glenbard North and was attended by speakers from the Alliance Against Intoxicated Motorists, the Illinois Secretary of State Police and States Attorney Bob Berlin. The program was well attended.
- In January the Police Department partnered with the Glenside Library and Health World to bring the "What is Addiction" interactive exhibit to Glendale Heights. The exhibit was on display for 6 weeks at the Glenside Public Library and was well attended.

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT

2011 ANNUAL REPORT

- The Department partnered with the YWCA and the Attorney General's office to sponsor an Internet and Social Media awareness presentation for adults. The presentation was well attended and has led to additional partnerships with the YWCA.
- The Police Department sponsored the Trick or Treat alternative at Safety Town for Halloween. This was attended by nearly 3,000 children and was funded by donations of candy and funds from local businesses.
- The Department also participated in the Glendale Heights Health and Safety Fair. Another huge event attended by thousands of residents.
- The Department conducted monthly educational programs at the Glendale Heights Center for Seniors entitled "Get a Clue with the Blue".

Grants

The Glendale Heights Police Department was the recipient of grants having a total value of nearly \$13,084. The majority of these grants were reimbursement grants which means the funds must be expended before the grant money is released to the Department; one was an equipment grant. The grants received are:

- Bulletproof Vest Partnership from the Federal Government, which shares the cost for bulletproof vests and ballistic equipment for our officers.
- State of Illinois Tobacco Grant, which reimburses expenses in the enforcement of retail sale of tobacco products to minor laws.
- CERT grant which provided funds for the start up of the Citizens Emergency Response Team.

The Department applied for grants for hiring a police officer, for construction of an Emergency Operations Center, radio narrow banding, a new shed for Safety Town and for a new squad car. The value of these grants exceeded \$825,000. Unfortunately, these were highly competitive grants with limited available funds and we did not meet the funding source's criteria. The Police Department continues to identify all alternative funding sources possible that will help the Department complete its mission.

As we begin 2012, the Police Department is assessing its goals from 2011 and developing new goals for the coming year. If you have any questions regarding this report please do not hesitate to contact me at your convenience.

Respectfully Submitted,

Michael S. Marron
Chief of Police

Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service

GLENDALE HEIGHTS POLICE DEPARTMENT 2011 ANNUAL REPORT

TOP 4 INTERSECTIONS INVOLVING ACCIDENTS

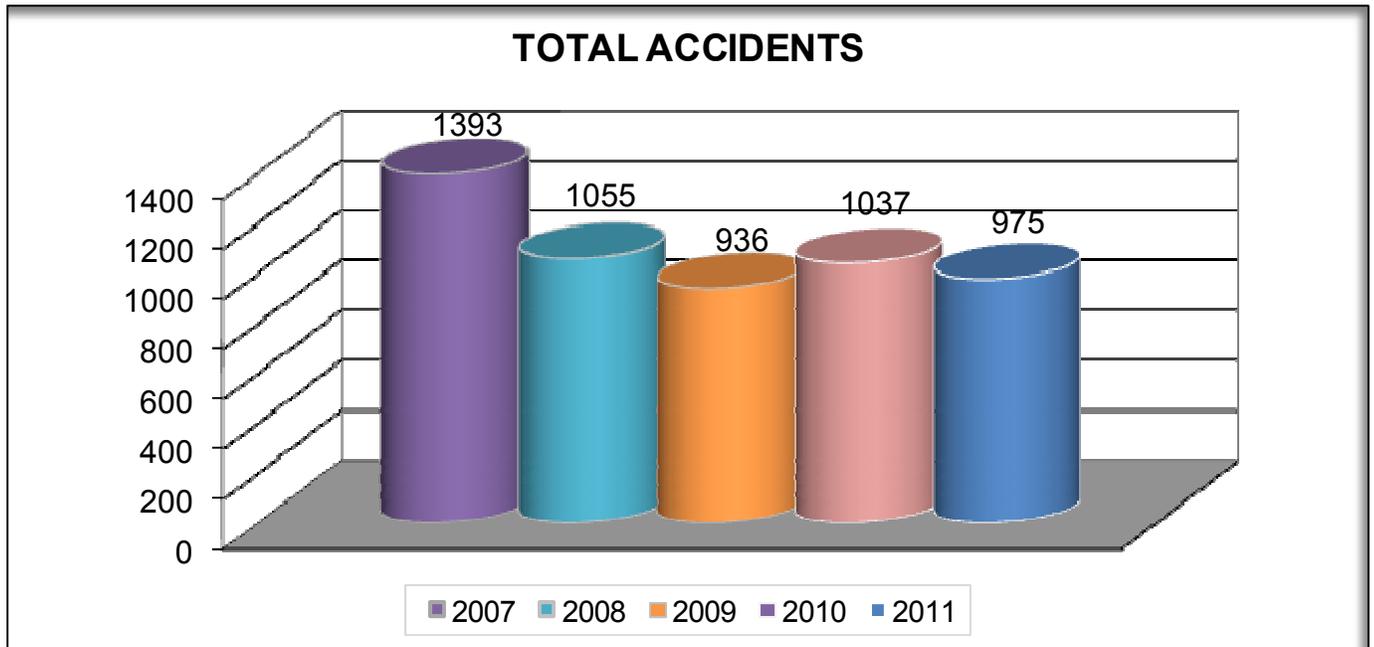

INTERSECTION	2010	2011
Army Trail Road & Bloomingdale Road	29	10
North Ave & Bloomingdale Road	33	13
Glen Ellyn Road & North Ave	19	13
Army Trail & George Bell		5
Fullerton & Bloomingdale Road	9	4
Glen Ellyn Road & Fullerton		4
Army Trail & Gladstone	5	4

Intersection related crashes are crashes that were actually related to an intersection and not just in the area.

In the past these numbers were pulled through are NetRMS systems giving us the number of crashes in the area, not actually in the intersection. This year is the second year that we pulled from MCR (Mobile Crash Reporting) giving us a more accurate intersection related crashes.
