**ANNUAL REPORT YEAR ENDING DECEMBER 31ST**

**2012**

**Prepared by Police  
Department Staff**

# LETTER FROM THE CHIEF

March 1, 2013

Village President Linda Jackson and Board of Trustees,

Village Ordinance, section 6-1-5D, requires the Chief of Police to provide the Village President and Board of Trustees with an annual report on the status of the Police Department. To that end my staff and I have prepared this annual report for calendar year 2012.

## ***Accreditation***

The Glendale Heights Police Department received its initial accreditation from the Commission on Accreditation for Law Enforcement Agencies (CALEA) in December of 2008 and was reaccredited in November of 2011. The process continues. In 2012 the Department continued to review and keep our policies and procedures updated as laws changed, Supreme Court Decisions were handed down that affected law enforcement, radio and phone systems were upgraded and our new building was occupied. The Department continues to be committed to the Accreditation process as it serves as a framework for a professional Police Department.

Our Police Department is one of 759 agencies that have received CALEA accreditation, out of a total of 17,985 police departments nationwide. **Accreditation is a credit to every member** of the Police Department and reflects on the professionalism and service to which they have dedicated themselves to both Law Enforcement and the residents of the Village. This process is important to the community as it assures our residents that the Glendale Heights Police Department is following the best practices in the law enforcement profession.

## ***Crime Statistics***

The majority of the pages in this report deal with the crime statistics in Glendale Heights and the activities of the Police Department. These statistics were compiled by Police Services Specialist Maureen Pope and Police Records Supervisor Patrick McDonald.

Part I crimes are those that are most serious in nature and include Murder, Robbery, Burglary, Theft, Aggravated Assault and Battery. There were 19 more Part I crimes in 2012 than in 2011, representing a 3.1% increase. The increase came in the form of increases in thefts and motor vehicle thefts, which negated the 50% decrease in robberies, decreases in Aggravated Assaults and Batteries, Burglaries and Arsons. Of the 420 reported Thefts in Glendale Heights in 2012, nearly 40% were retail thefts.

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# LETTER FROM THE CHIEF

Glendale Heights remained murder free for the third year in a row with only one murder in the last five years. The reported increase in Part I crimes reflected in this report contradicts the preliminary numbers previously provided by the Department for the preparation of the Mayor's State of the Village report. Our final numbers frequently change, as prior to the completion of this annual report, each month's statistics are reviewed as case statuses change, and are updated during the course of the year. The preliminary numbers are provided based on a running total of monthly numbers. In 2012, 30.1% of Part I crimes resulted in an arrest, compared with 30.4% in 2011 and 21.0% in 2010.

Part II crimes are less serious but equally important. Part II crimes include Criminal Damage to Property, Deceptive Practice, Forgery, Liquor Law Violations, Identity Theft, Internet Crime and most Class A Misdemeanor Traffic Offenses. Part II crimes decreased by 17.7% this year as compared to the previous year. The clearance rate, by arrest, for Part II crimes in 2012 was 49% compared with 52.6% in 2011.

There was a slight decrease in the number of calls for service in the Village. Calls for service include all calls to the Police Department for which a police report number is generated. There were 1,553 fewer calls for service in 2012 compared to 2011. There has been no change in the distribution of calls throughout the day; our busiest times are still between 10:00 AM and Mid-night. There are slightly fewer calls for service on Sundays and more on Fridays and Saturdays; the remainder of the week's calls are fairly evenly distributed.

## ***Police Activities***

The Police Department conducts other activities that are not included in the calls for service. These are activities for which police report numbers are not generated. Anti-gang watches were up 28% over 2011; Bar Checks were down by 3.9%; Extra Watches were higher by 30.8%; Traffic Stops were lower by 22%; Special Traffic Enforcement Zone Patrols were 3.1% higher; and there was a 21.8% increase in the number of foot patrols. When combined with the calls for service, there was a 2.6% increase in police activity as compared to 2011.

## ***Major investigations in 2012 included:***

*Child Pornography Investigation* - On March 23, 2012 Glendale Heights Police served a search warrant on the home of Pavel Logvin who resides in Bloomingdale reference a child pornography investigation. This was the culmination of a joint investigation between the Glendale Heights Police Department and the Bloomingdale Police Department. Logvin was charged with 4 counts of Aggravated Child Pornography.

# LETTER FROM THE CHIEF

Unlawful Use of Recorded Sound or Image - On March 6, 2012, the Police Department charged Ashgar Khalid with Unlawful use of Recorded Sound or Image. This charge comes from an undercover buy of pirated movies and music from Khalid Pakistani and Indian food store, 1985 Bloomingdale Rd. Khalid had over 10,000 illegally reproduced movies in the store. He was charged with one felony count and posted bond.

Home Invasion/Armed Robbery - On July 9, 2012, the Glendale Heights Police Department responded to a Home Invasion in the 2300 block of Century Point. Two persons along with a small child were inside the apartment when Juwan Franklin and William Lewis entered the residence armed with a shotgun and asked for the occupants' money. A fight ensued inside the apartment and Franklin and Lewis fled taking only cell phones. As a result of the investigation Franklin and Lewis were arrested and charged with two counts of Home Invasion and Armed Robbery.

Commercial Burglary - On July 19, 2012, Glendale Heights Police responded to a Commercial Burglary at 2105 Bloomingdale Road, Xtreme Nutrition. Patrol officers arrested two subjects in the act of burglarizing the business. As a result of the investigation over \$10,000.00 in product was recovered from a prior burglary and Nguyen, Duy T. and Mahdi, Samier A. were charged with two counts of Burglary.

Aggravated Cruelty to Animals - On July 28, 2012, we responded to 693 Fullerton for an Aggravated Cruelty to Animals complaint. Officers found that an 8 year old Chihuahua had been severely beaten and killed. It was learned that after a domestic dispute Michael Chacon killed the 8 year old Chihuahua belonging to his girlfriend. The dog died of blunt trauma and internal injuries. Chacon was charged with one count of Aggravated Cruelty to Animals and taken to DuPage County Jail. Michael Chacon has since been found guilty of Animal Cruelty and sentenced to 20 months in prison.

Aggravated Criminal Sexual Abuse - On August 13, 2012, the Police Department was called to the 2300 block of Century Point for the report of a suspicious circumstance. A female juvenile reported that Aaron Tentle Hernandez approached her and offered her money for ice cream. He then, without her permission, hugged her twice, the second time placing her hand on his genitals outside of his clothing. Hernandez was arrested and after being interviewed was charged with Aggravated Criminal Sexual Abuse, a class 2 felony, and transported to DuPage County Jail.

Aggravated Robbery - On November 30, 2012, Francisco A. Vargas and Carlos Rios Uribe were each charged with one count of Aggravated Robbery. Francisco and Carlos set up a drug transaction to take place at 30 Opal; when the victim arrived they used a pellet gun to conduct the armed robbery.

# LETTER FROM THE CHIEF

Death Investigation - On July 11, 2012, officers were dispatched to the 400 block of Gregory Avenue for an assist to the fire department which later became a death investigation. A four month old was found in her playpen with her face covered by plastic diaper bags and a t-shirt. Her two year old brother was also in the room at the time of the death. After a long investigation the coroner's office has ruled this as an accidental death.

Death Investigation - On December 16, 2012, patrol officers were sent to 693 Fullerton to assist Lombard Police Department with securing the apartment for a death investigation. The investigation was later determined to be a Glendale Heights investigation as the death took place in Glendale Heights. On December 13th a young woman was at the apartment visiting family. While inside the apartment she went to the bathroom and gave birth to a baby. The baby appeared to be dead. The baby was wrapped in a towel and placed outside of the apartment behind an air conditioner. The next morning she picked up the baby and brought the baby to her work at Yorktown Mall, where she disposed of it in a dumpster. She was later taken to Elmhurst Hospital for complications from giving birth. A joint investigation between the Lombard Police Department and the Glendale Heights Police Department was conducted. The DuPage County Major Crime Task Force evidence team was also called out. This investigation continues.

## ***Traffic***

There was a 22% decrease in the number of traffic stops made by the Department and 24% decrease in the number of traffic tickets issued compared with 2011. The number of DUI arrests was down as well. While the Department experienced staffing challenges throughout 2012, with as many as 5 officers on injury or illness leave at one time, there have also been reported State-wide trends in a decrease in the number of traffic citations issued as well as County-wide. The Chicago Tribune reported a reduction of 16% in DUI cases State-wide between 2007 and 2010. Some reasons cited for this reduction include fewer officers, increased penalties, the economy, and the lack of the DUI overtime grant, locally. According to an article in the Chicago Tribune by Robert McCoppin on December 19, 2011:

“...The latest numbers show a drastic reduction in drunken driving in Illinois. Between 2007 and 2010, drunken driving arrests fell 16 percent, and the number of fatalities from alcohol-related crashes dropped 33 percent, according to figures from state police and the Illinois Department of Transportation. Fatalities this year have fallen even further in preliminary reports, to less than half of what they were just three years ago.

# LETTER FROM THE CHIEF

Anti-drunken driving advocates maintain the decrease is tied not just to societal shifts but to the strengthening of DUI laws and their enforcement. Other observers point to the economic downturn that has resulted in fewer people going out drinking.

Laws aimed at curtailing drunken driving — like increasing penalties for offenders — fueled drops in DUI arrests and alcohol-related fatalities nationwide in the 1980s and '90s, according to Mothers Against Drunk Driving. Illinois lowered its legal blood-alcohol content limit to 0.08 from 0.10 in 1997, and statewide drunken-driving arrests increased from 44,710 in 1996 to nearly 50,000 in 1999, according to state figures. That number hovered around 50,000 for several more years until the notable drop-off that has occurred since 2008 — around the start of the economic downturn.”

Traffic tickets and traffic stops have fallen statewide. Per the 2011 Illinois Traffic Stop Study Annual Report prepared by Weiss Consulting traffic, stops across the state have shown a marked decrease, as depicted in the graph below (year 8 shows the traffic stops for 2011):

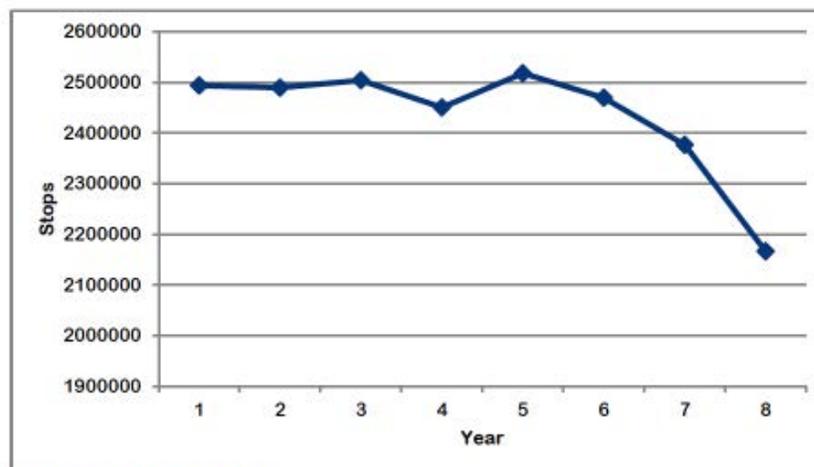

Figure 1 Traffic Stops 2004-2011

A Daily Herald article by Robert Sanchez published on August 20, 2012 stated:

"Police Officers wrote 149,977 traffic tickets in DuPage between July 2011 and this past June, according to data from the circuit court clerk's office. That's 16,905 fewer tickets than the previous year. Jerome Siegan, a spokesman for the DuPage circuit court clerk's office, said it's the second consecutive year traffic violations countywide have dropped."

# LETTER FROM THE CHIEF

In Glendale Heights, the number of traffic accidents dropped this year. The total number of reported accidents in 2012 was 945, in 2011 we had 975; this represents a 3% reduction. The number of accidents involving an injury decreased nearly 2% in 2012. It continues to be a goal of the Police Department to decrease the number of accidents through enforcement and education. There were no fatal accidents in 2012, while there was one in the previous year.

The intersection of Bloomingdale and Army Trail Road took over as the top intersection for traffic accidents in 2012 with 9 accidents. The Police Department had made application to the Illinois Department of Transportation (IDOT) for permission to install red light running cameras at both Bloomingdale Road and North Avenue and Glen Ellyn Road and North Avenue in 2012. IDOT denied our applications, citing a low rate of accidents in these intersections compared to the number of vehicles passing through per day. For instance, Glen Ellyn Road and North Avenue has 67,700 vehicles travelling on North Avenue at this location per day. In 2012, there were five accidents within the intersection; this translates to a .000002% chance of being involved in a crash in the intersection if one travelled through that intersection every day. The Police Department will continue to identify and implement methods to decrease the number of accidents in the Village. It is important that motorists and pedestrians can safely navigate our roadways.

You will note that parking tickets issued in 2012 declined to 8,710 from last year's high of 11,550. Even with the reduction, this is still the second highest total number of parking tickets issued within the Village since 2000. Of the tickets issued, 43% related to Village Sticker violations, which includes overnight parking and failure to display a Village Sticker.

## ***Traffic Stop Statistical Study***

The State of Illinois is in the ninth year of collecting data on traffic stops made by police officers throughout the State. The data is analyzed each year by the State to determine if minority drivers are being stopped at a higher rate than white drivers. When the study first started, Northwestern University analyzed the 2000 Census numbers and determined the driving population for each municipality in the State, by race. Since that time, these numbers have been used to analyze our traffic stop data. Now that the 2010 Census has arrived we would like to use the data to make our comparisons, however, the State's consultant has not completed their analysis of the Census data to determine our driving population for each race or ethnicity. So, we have compared 2012 traffic stops to the raw 2010 census data. In 2012, whites represent 57.3% of our traffic stops and represent 44.4% of the population, indicating a disparity index of 1.29, meaning that whites are

# LETTER FROM THE CHIEF

overrepresented in our stops. The non-white disparity index is .77, indicating they are underrepresented in our traffic stops.

The true measure of discretion by officers is the consent search. Basic search rates can be skewed by the number of arrests made in one demographic as compared to another; a consent search is not required, however, and is conducted after the officer has determined the race of the individual stopped. In Glendale Heights the statistical study indicates that 43 vehicle consent searches were conducted in 2012; 21 white (49%), 12 African American (28%), 0 Asian (0%) and 10 Hispanic (23%). There has been an extremely low number of consent searches reported, which negates the idea that officers are making traffic stops solely for the purpose of looking for consent searches. The 2011 Illinois Traffic Stop Statistical Study Annual Report, in its appendix on interpreting agency Reports, warns:

"Finally, we can see information about consent searches. Although we include consent search data for all agencies, readers should take great care in drawing conclusions when an agency has fewer than 50 consent searches per year."

Essentially the 43 consent searches conducted by members of the Police Department is too small of a sampling to allow meaningful statistical analysis.

Per the latest legislation, the study is slated to end in 2014. The Glendale Heights Police Department has a strict policy which prohibits all racially biased policing.

## ***Communications***

The Communications Center saw a reduction in the call volume of 5.8% this year. In 2012 the Communications Center handled 14,972 emergency calls for service as well as 29,922 non-emergency and administrative calls. During the course of the year, telecommunicators are tasked with making a number of phone calls to tow companies, other agencies and a myriad of other calls in support of the police officer on the street. There were 20,955 of these outgoing phone calls for a total number of calls handled in the Communications Center of 65,849; that averages a call going into or out of the Communications Center every 8 minutes. When considering the workload in the room, one must also take into consideration the radio traffic. The Police Department takes measures to ensure that the quality of the call taking in the Center is maintained. Supervisors make random checks of the tapes to ensure quality. Given the capacity handled by our Communications Center, it is easy to see why we have struggled to maintain full staffing in the room.

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# LETTER FROM THE CHIEF

The Communications Center operated the majority of the year at a staffing deficit due to an open worker's compensation claim. In December of 2012, the Communications Center filled the last position and is now at full staff. It has since been determined that the system which captures 911 call data was not functioning properly at various times throughout the year and was not accurately capturing the number of emergency calls. The calls were received but the software was not counting them properly. Work orders have been placed with the vendor to correct this issue.

## *Use of Force*

The Department's review of its Use of Force for 2012 showed a decrease of seventeen reported incidents. There were 27 reports of force being used against suspects compared to 44 last year; based on the 16,875 incidents handled and 6,621 traffic stops, that is a .11% rate of force used per incidents/traffic stops handled. In the 27 use of force incidents, 35 individuals were involved. Of those 35 individuals, 10 reported they were injured during the incident. Of those 10 individuals, eight were transported to the hospital for treatment. Of the eight transported, six individuals were kept in the hospital; all being admitted due to either being emotionally disturbed or due to their level of intoxication and not due to injuries sustained as a result of the use of force. Of the 35 individuals against whom defensive action was taken, 28% were under the influence of alcohol, 7% were under the influence of drugs and 36% were emotionally disturbed. In 2012, 11 officers sustained minor injuries as a result of these 27 use of force incidents.

Each use of force is reviewed by the immediate supervisor and then by a Use of Force Review Board to determine whether or not the force used was objectively reasonable, and complied with State law and Department policy. All uses of force were determined to be within the law and Department policy.

## *Training*

The Glendale Heights Police Department continues to make training its officers a top priority. Police officers are given the authority by law to take a person's freedom away, pursue fleeing violators, use force to make an arrest and in extreme cases are authorized to take a life if necessary. No other profession has the power afforded to the police. It is important that police officers are consistently trained and kept up to date on new laws and techniques, and are refreshed on skills not used often but that are necessary, commonly referred to as low frequency, high risk skills. To further the training process, the Department established a training committee to identify training needs and curriculum that will keep officers fully trained professionals.

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# LETTER FROM THE CHIEF

The Training Committee has developed a training program that schedules training through the next several years to ensure that our officers and employees remain highly skilled. In 2012 over 2,650 hours were spent in some form of training, which ranged from Management Training, language, General Investigations, Surveillance, Narcotics Enforcement, Defensive Tactics, Gang Crime Investigation, First Aid/CPR, Tactical Response, NIMS training, Traffic Enforcement, DUI Enforcement, new laws, Firearms, policies and procedures training, among other topics. A well trained police department is essential to providing quality law enforcement service to the community.

## *Community Involvement*

In 2012, the Police Department continued to participate and facilitate events that reach out to the public to foster community involvement. School Resource Officers conducted hundreds of D.A.R.E. classes in our primary schools. The Department also ran one week long Safety Town class. An abbreviated Safety Town class schedule was a result of the construction occurring at the Village Campus. Members of the Department conducted the 8<sup>th</sup> annual Junior Police Academy, designed for 5<sup>th</sup> through 8<sup>th</sup> graders. Students are exposed to a variety of police training that includes testing to be a police officer, evidence work, and making traffic stops.

The Department continues to stay in touch with the community through the Neighborhood Watch program. Meetings are held on the 4<sup>th</sup> Wednesday of every month in the Council Chambers. Attendees are shown a presentation which includes a synopsis of crimes that occurred during the past month and are treated to guest speakers. Through Neighborhood Watch meetings, trouble spots in the Village come to light. The Department has crime mapping software available on our website, which allows residents to call up incidents that have occurred in their neighborhoods, at their convenience from their homes.

The Department operates the Code Red emergency community notification system. This system allows the Police Department and the Village to notify the residents of emergencies that may be occurring in the Village, by telephone, email or text, It can do a Village-wide notification or can be tailored to specific areas, depending on the incident. This system is also used to do well-being check phone calls to our senior citizen population during extreme weather situations.

Members of the Police Department attended numerous park parties and neighborhood block parties during the year. In August, the Department threw the largest block party of the year at Camera Park, in honor of National Night Out. Free hamburgers, hot dogs and beverages were distributed to residents attending.

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# LETTER FROM THE CHIEF

There were booths with information to increase awareness of crime and McGruff the crime dog made an appearance. The Illinois Treasurer's Office set up shop to help residents check for their names on the unclaimed funds registry, and the Glenside Fire Department brought some of their equipment for display. Polygon sponsored a shredding event at National Night Out again this year. The event was attended by over 400 residents despite the threatening weather. Target remains a large sponsor of the National Night Out activities.

A Citizens Police Academy was conducted from September through November and twelve residents graduated at a banquet in their honor in November. We hope interest continues in this program into the coming years.

The Police Department continues to take advantage of the Village's web site and the skills of the Public Relations Department to better communicate with the public. Crime alerts are posted and press releases are available on the Police Department's site. We post the annual report on the site to inform residents of what is occurring in their community. We have found this to be a valuable tool in working in partnership with the community. One goal of the Department is to become more involved with using social media as a way of communicating with our residents.

## *Major Accomplishments*

In addition to dealing with day to day operations, the Police Department initiated and completed several important projects during 2012.

- We completed both phases of the Police Facility construction project. Phase one was completed in June and Phase 2 was completed in December.
- The Police Department completed its move into the new facility as well as moving and inventorying all evidence and property maintained in our Evidence Vault.
- The Department held one CERT, class training eighteen more residents in emergency preparedness. Quarterly training was also held for alumni, current CERT team members.
- In April the Police Department sponsored an Easter Egg hunt at Safety Town, which was well attended.
- In January the Police Department partnered with the Glenside Library and Family Shelter Services to bring the Art Exhibit "Behind Closed Doors" to the library. The Behind Closed Doors art exhibit is made up of 18 pieces that symbolize the tribulations endured by victims of domestic violence, as well as the triumphs of beginning a new life free of abuse. Each artwork is accompanied by an artist statement - telling the story of these courageous individuals and their journey to safety and independence.

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# LETTER FROM THE CHIEF

- The Department co-sponsored a dating violence workshop for DuPage County Law Enforcement officers in cooperation with the YWCA and the DuPage County Sheriff's Department.
- A program regarding dating violence was also held for the general public in cooperation with the YWCA.
- The Police Department sponsored the Trick or Treat alternative at Safety Town for Halloween. This was attend, by nearly 3,000 children and was funded by donations of candy and funds from local businesses.
- The Department also participated in the Glendale Heights Health and Safety Fair, a event attended by thousands of residents.
- The Department conducted monthly educational programs "Get a Clue with the Blue" at the Glendale Heights Center for Seniors entitled.
- On December 11, 2012, the Glendale Heights Police Department conducted a table top exercise with School District 16 simulating an intruder in Glenside Middle School. The exercise was attended by District 16 Administrative Staff and School Principals as well as members of each unit of the Police Department. Glenside Fire District was also in attendance. The exercise was well received and created good dialogue in regards to an incident of this type.
- The Police Commission conducted a recruitment drive and created a new initial eligibility list for the position of Police Officer. A diverse group of 174 applicants participated in the process. The eligibility list that was created contains 107 individuals and is valid through September on 2014.

## **Grants**

The Glendale Heights Police Department was the recipient of grants having a total value of over \$41,000. The majority of these grants were reimbursement grants which means the funds must be expended before the grant money is released to the Department. The grants received are:

- Safe Routes to School Grant.
- State of Illinois Tobacco Grant, which reimburses expenses in enforcement, of laws pertaining to retail sale of tobacco products to minors.
- CERT grant, which provided funds for the start up of Citizens Emergency Response Team.
- A grant from Target for National Night Out.
- A grant from Allegra Printing for Safety Town flyers.

# LETTER FROM THE CHIEF

The Department applied for a federal grant for hiring a police officer, the value of which was \$125,000. Unfortunately, this was a highly competitive grant with limited available funds and we did not meet the funding source's criteria. The Police Department continues to identify all alternative funding sources possible that will help the Department complete its mission.

If you have any questions regarding this report please do not hesitate to contact me at your convenience.

Respectfully Submitted,

*Working in partnership with our community to maintain safe and secure neighborhoods, reduce crime, and improve the quality of life for our citizens through ethical, courteous and professional police service*

# SERVICE CODE SUMMARY

A black dog with white markings on its chest and paws is running through a large, deep pile of snow. The dog's tail is raised, and it appears to be splashing through the snow. In the background, a brick building with a window is visible.

**Dog at Large**

A red fire truck is parked on the left side of a residential street. The truck has a white storage compartment on its side. The street is lined with trees and houses. A white SUV is parked on the right side of the street. Several people are visible in the background near a house.

**Assist Fire Department**

# TOP 5 INTERSECTIONS INVOLVING ACCIDENTS

INTERSECTION	2012	2011	NUMBER OF VEHICLES PASSING THROUGH THE INTERSECTION A DAY
1. Army Trail/Bloomingtondale Rd	9	13	29800
2. North Ave/Glen Ellyn Rd	5	13	67000
3. North Ave/Bloomingtondale	4	13	58000
North Ave/President St	4	2	55600
Bloomingtondale Rd/Shorewood	4	3	14200
Bloomingtondale Rd/North Brandon	4	3	23400
4. Glen Ellyn/Fullerton	3	4	17300
Bloomingtondale/ Greenway	3	3	26000
5. Bloomingtondale/Gladstone	2	4	23400
Bloomingtondale/Armitage	2	1	19100
Bloomingtondale/Stevenson	2	3	23400

In 2012 the numbers are actual crashes which occurred within the intersection. In 2011 we used within 25 feet of the intersection as criteria.

# 5 YEAR COMPARISON

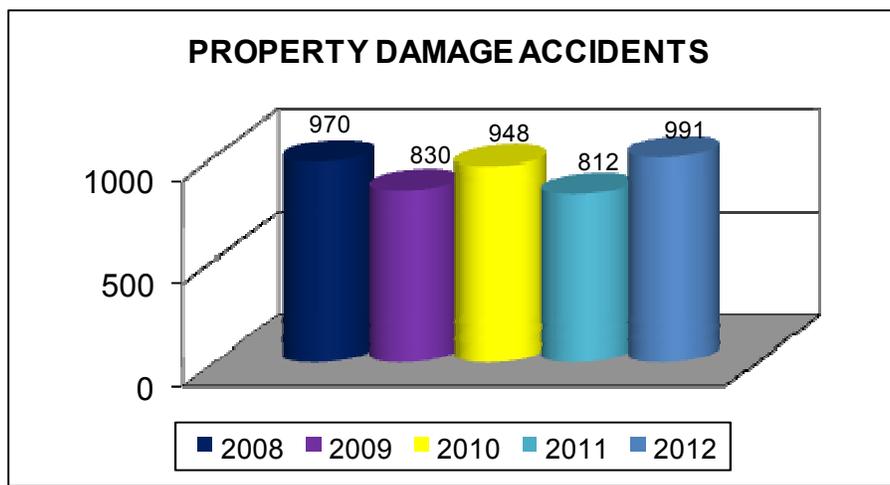

## 2012 ACCIDENT SUMMARY

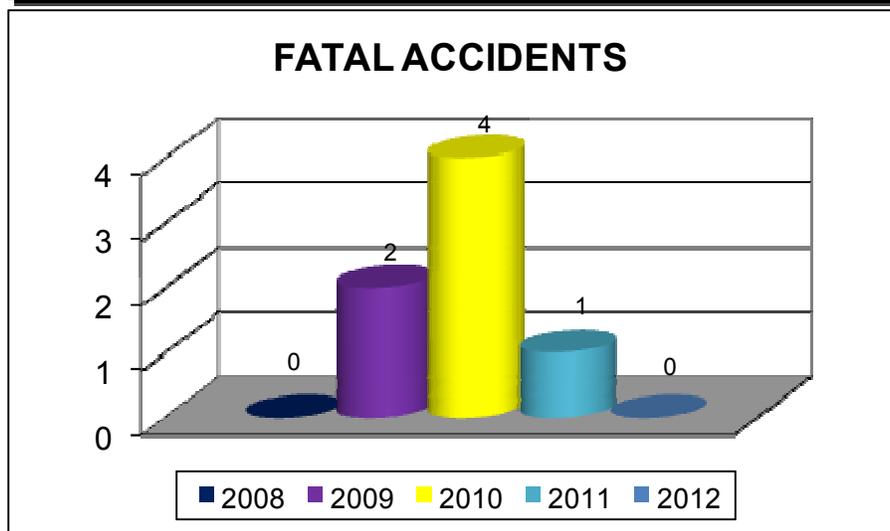

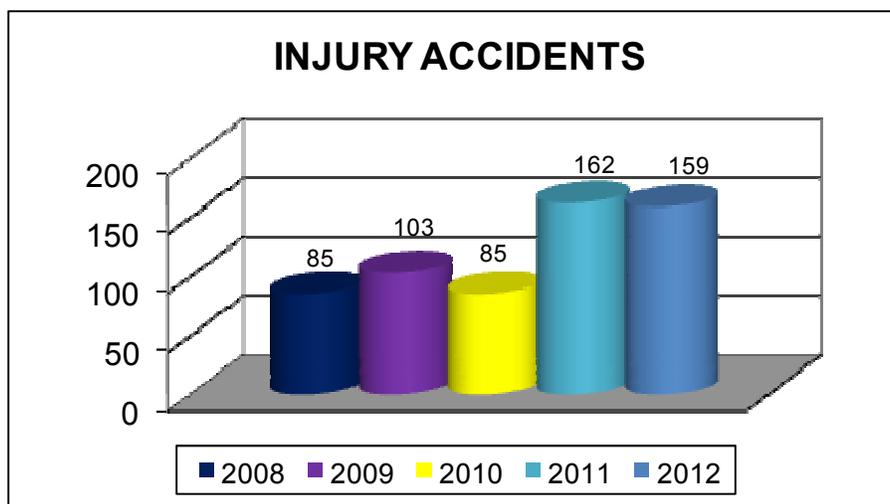

Fatal	0
Personal Injury	159
Property Damage	455
Private Property	306
Hit and Run	180
<b>Total</b>	<b>945</b>

**Note:** A crash could be placed in more than one category to more accurately reflect what types of crashes are occurring. The crash would still only be counted as one crash for the total crash number
